Pharmacy as a profession is responsible for the preparation, dispensing and appropriate use of medication and which provides services to achieve optimal therapeutic outcomes. A Pharmacist job is to prepare, mix, compound or dispense drugs and medicines, ointments, powder, pills, tablets and injections on the prescription of a medical practitioner, dentist or veterinarian. Additionally, a pharmacist is required to explain the mode and precautions regarding the use of medicines dispensed in a hospital pharmacy; prepare special formulations normally not available in the market, assist the physician in rendering necessary information about various drugs, their contra-indications, incompatibility etc.

It is an incredibly exciting time to pursue a career in pharmacy and students graduating from Galgotias University have a wide-range of career opportunities available to them. We invite you to join us on this exciting journey.
