Galgotias University is established in 2011 by the Government of Uttar Pradesh and recognised by the University Grants Commission (UGC). The vision of GU is to be known globally for value based education, research, creativity and innovation. GU is situated on 52-acre state-of-the art campus in the National Capital Region of Delhi. Galgotias University is devoted to excellence in teaching, research and innovation, and to develop leaders who’ll make a difference to the world. The University, which is based in Greater Noida, has an enrollment of over 20,000 students across more than 200 Undergraduate and Post Graduate programs.
Vision
To be globally recognized for the state-of-art value based nursing education, nursing service and multidisciplinary research to meet the health care needs of country.

Mission
• Establish state of art infrastructure and stimulation laboratories for providing nursing education, research and practice so that the nurses can provide safe and quality care to the patients in all settings.
• Promote professionalism by fostering ethical and value driven education by aligning curriculum as per National health goal.
• Collaborate with health care and community health institutions to impart practical training for nurses to work effectively in their professional career at national and global level.
• Organize outreach programs for wellness of vulnerable groups of society for socio-economic development of the country.
B.SC NURSING

PROGRAM OVERVIEW: By choosing BSc Nursing course you will be taking the first step towards a career in nursing. You will be entering a registered graduate profession with the potential for future career opportunities at local, regional, national and international levels.

Nurses work with old and young adults with diverse health conditions, both chronic and acute, within both hospital and community settings. An essential part of the role is the promotion of health through education, the prevention of disease and the care, sustenance and rehabilitation of adults undergoing diagnostic and therapeutic regimes.

What do nurses do? In the hospital, being a nurse will require you to work in surgical departments, operating departments, medical departments and in the intensive or high dependency care areas.

Nurses can be found working in many different areas of the community. Community nursing teams provide high quality professional care to the large number of patients cared for in their own home. Practice nurses are part of the team at the local GP surgery. Nurses also work in industry and commerce, providing health screening and support for the workforce.

We believe that every individual should receive high quality nursing care that promotes health and well-being, and provides support when health is compromised. Our degree nursing course will promote your strengths and aspirations to become a registered nurse who can deliver and co-ordinate evidence based essential care, work in partnership with inter-professional health and social teams, voluntary agencies, community groups, statutory organisations, service users, careers and significant others, and lead and respond to the changing health care system.

Our nursing course will require you to work with inter-professional teams in these settings to become competent at the skills and knowledge required to deliver high quality nursing care. You will also be required to successfully undertake and practice a range of theoretical assessments.

At GALGOTIAS SCHOOL OF NURSING the students go through practical hands on training at hospitals in the region. Students who have graduated from our Institute are working in several major hospitals in INDIA AND ABROAD.
providing health screening and support for the workforce. GP surgery. Nurses also work in industry and commerce, their own home. Practice nurses are part of the team at the local professional care to the large number of patients cared for in community. Community nursing teams provide high quality care areas.

English with minimum of 45% aggregate marks. ENTRY REQUIREMENTS: 10+2 from a recognized board or university with Science (Physics, Chemistry, Biology) and

The minimum age for admission shall be 17 years.

CAREER AVENUES: Professional nurse require a sound knowledge of the art & science of nursing, the biological sciences, and the humanities; communication, possess critical thinking and problem solving skills; and a deep and tolerant understanding of humanity. Today’s nurses should be curious, open to new ideas, and tolerant of uncertainty and ambiguity. They need to understand, appreciate, and use pluralistic methods of generating knowledge of the human health experience; and to understand the relationships between and among the theory, research and practice for developing knowledge/skill base. Nurses need the ability to provide expert client care; to cooperate and collaborate with clients, nurses and other professionals of health care team, utilizes acquired knowledge for preventing, promoting, curing, maintaining and restoring human health and to translate that knowledge into policies and practices which will improve the human conditions.

The Bachelor of Nursing curriculum prepares graduate nurses with the knowledge and skills to function competently in meeting the needs of the existing and future demands for national and international health care system. Graduates will be able to pursue careers as professional nurses in clinical practice, research, education and management. The scope of nursing is too wide in India as well as in abroad. She can work as clinical nurse in the hospital setting for all the specialized units, as community health nurse in Mother and child health clinics, primary health centers, School health programs, industrial health nurse, air-lines, Graduate Nurse can pursue further for post graduate courses in nursing to become specialized in cardiology, Neurology, Oncology, Critical care, nurse practitioner, pediatrics, psychiatric and medical surgical nursing. She can even further move up in the ladder and persue for PHD in Nursing and choose researcher as her carrier and occupy higher positions in nursing.
The School is committed for quality education and dissemination of knowledge in pharmaceutical sciences & allied health sciences in lines with latest education requirements. Our faculties have extensive experience in industry, health care sector, research as well as academics. The faculties are from renowned Universities and Institutions of national repute line NIPER, JAMIA HAMDARD, BHU, AIIMS, JADAVPUR & DELHI UNIVERSITY. Our strength is a reflection of their skills, innovation and drive.

**INTERNSHIPS**

At the end of every academic year, students are provided opportunities to pursue internships to gain some real world practical experience. Emphasis is placed on ensuring that students attending the program are placed in rewarding, real-world company assignments that extend the learning experience into areas which are not available at the university. Most of our degree programs offer the opportunity for practical, hands-on experiences, internships and projects within the community.

In addition to all the traditional teachings, the curriculum makes it compulsory for every MLT, CVT, OPT & Physiotherapy student to undergo internship. Students are allowed to do their internships in various hospitals of good repute like Jaypee, Yatharth, Max, Fortis, BLK, Medanta, NHI etc. In addition the pharmacy graduates undergo their training during their summer & winter break in Hospitals of good repute.

**RESEARCH EXCELLENCE**

School of Medical and Allied Sciences of Galgotias University is one of the top research centers in Delhi NCR. School conducts many research oriented program such as Ph.D. and M. Pharm (Pharmaceutics). The thrust of the school involves research on nanotechnology, polymer sciences, biomedical sciences and mainly covers disease like cancer, diabetes, arthritis and wound healing. The school faculty is highly research oriented. 500 Research/Review Papers 13 Patents Filed 4 published More than 10 books published

**CONFERENCES & WORKSHOPS**
