**SCHOOL OF COMPUTING SCIENCE AND ENGINEERING
REPORT ON ART MELA**

Date: 1 SEPT 2016

Venue: C Block Room no. 216

Time: 11:00 AM

School of Computing Science and Engineering has organized "THE ART MELA" a platform to showcase creative & artistic talent of the students. The exhibition was inaugurated by the Dean SCSE. The main motive of this event was to promote creativity and new ideas, provide guidance to students and explore new and innovative ways of doing things. It was not only to motivate students to explore art but to realize them how beautiful is the world of art.

Events like face painting and calligraphy had ignited the spirit of artist among students. There was a Pablo's Corner which was especially made for the abstract paintings and full of creativity. This day became a memorial day as being the festival of creativity and enjoyment.

This day made entire campus lit with creativity and each one of us was amazed by abstract style painting showed by senior students of campus. At the time of result declaration of the competition, judges were in tight position to make judgment. The artworks showed by students were outstanding and made us speechless. The **ART MELA** ended by the outstanding and creative art style exhibition.
