A Rangoli competition was organized by School of Computing Science and Engineering on 5TH October 2018, Friday. The competition aimed at honing aesthetic skills, creativity and innovation of the students. Students participated earnestly and with enthusiasm .

The theme of the competition was 'celebrations and festivals'. Rangoli making is an integral part of Indian tradition and culture. Beautiful rangolis adorn the Indian houses specially during festivals. The participants created innovative designs of Rangoli using waste material, grains, bamboos, diyas, flowers and sawdust apart from rangoli colours.

Students respected nature by using all the bio-degradable items for rangoli competition. The colourful and vibrant rangolis presented a picture of festivity and gaiety.
