**SCHOOL OF COMPUTING SCIENCE AND ENGINEERING  
REPORT ON NUKKAD NATAK COMPETITION**

**Venue: Food Court Area.**

**Time: 11:00 AM**

**Date: 13th September 2015, Wednesday**

Street Theatre or the Nukkad Natak, as it is locally known, is perhaps India's most ancient form of entertainment. Since times immemorial, we've had motley crowds of people gathered around street performers at public places like in malls, market areas and road sides. Often these street plays are based on issues concerning the society.

With an aim to acquaint our young minds with this ancient but gripping art, School of Computing Science and Engineering organized Nukkad Natak Competition. All the plays revolved around social issues like child labour, road safety, superstitions and water conservation.

It was a feast to the eyes to see these actors perform so well with such vigour. Their crisp dialogues and gestures held everyone spellbound. The audiences were mesmerized with the performance of all the participants.
