Report On Twist & Turns-Rubiks Cube Competition**

Date: 14 OCT 2016

Venue: Campus Yoga Room

Time: 10:00 AM

School of Computing Science and Engineering organized a Twist N Turns competition on 14th October 2016, Friday. During the competition round requires the competitors to solve three Rubik's Cubes correctly, the audience murmured words of encouragement to the competitors.

All of the competitors were champions. None of them knew how to solve a cube before they learned the algorithms. None of them had ever competed in front of an audience. But this was a chance given to students by School of Computing Science & Engineering to show how quickly they solve cubes. This was an out of the box competition organized especially for those who aspire to experience different things and learn from different domain.

The time difference in solving Rubik's Cube was very less and was so challenging for judges to judge with such little time difference. But still there were winners and were praised for their skills and speed.

As per the consent of Cultural Committee

Winners: 1) Priyank Deshwal
2) Divya Sharma
3) Gaurav Kumar
