

IT-ITeS Sector Skills Council NASSCOM collaborates with Galgotias University to launch the ‘Employability Enhancement Program for Students’ to implement Qualification Pack (QP) based Training Programs and Assessments.

IT-ITeS Sector Skills Council NASSCOM (SSC NASSCOM) has signed an MoU with **Galgotias University** to offer the QPs through Outcome Based Framework (OBF). All the program courseware are developed by SSC NASSCOM, and the strategic alliance with the university aims to offer the program to all undergraduate students as an elective course to enhance the employability skills of these students. This initiative will benefit about 1,000+ students in the initial year, to get them industry ready.

The Qualification Packs(QP) are:

1. Analyst Application Security
2. Associate Analytics
3. Product Design Engineer - Mechanical

The Indian IT–BPM Industry currently employs about 3.1 million people directly and offers about 9 million people indirect employment opportunities. As per NASSCOM’s research report “Perspective 2020”, this industry has a potential to create about 30 million employment opportunities (direct and indirect) by 2020.
