

Alumni Talk

THE JOURNEY FROM A STUDENT TO AN ENTREPRENEUR

The School of Business conducted a Virtual Alumni Talk on **15th March 2021**. The alumni meet held in virtual mode on MS Teams platform. The guests were our own alumni of Galgotias University **Mr. Vishal Mandal and Mr. Kumar Prabhu Ratnam (2020 Pass out)**. **They are the proud founders of ShardaKant Organics.**

Mr. Mandal started the talk by remembering the old days at Galgotias and how he has seen ups and downs in life. He shared remarkably interesting events during the student life and recalled the interaction with faculty members. He asked and advised students to take their life at campus as an opportunity to explore various dimensions of entrepreneurship.

He shared his inspiration to be an entrepreneur and how failures taught the real lessons of life. Mr. Prabhu took it further and shared the opportunities during the campus life and how he took a decision to go for entrepreneurship. He shared the various challenges faced during the initial days and how they have dealt with it. He emphasized that never take a call by seeing others because it is extremely easy to judge someone's work but extremely hard to feel the hard work they have done.

The meeting was attended by more than 80 participants who admired their seniors and got an opportunity to interact with the successful entrepreneurs. Speakers also emphasized that there is no short cut so never hesitate and be afraid to take risk in life.

An experienced person can guide far better than books. The main thing in starting a business is RISK. Students learnt about risk taking, and the challenges to run a firm. Moreover, they also talked about the unforeseen circumstances and how they can pose a challenge to survive and talked about their journey during the pandemic. The decisions they took, the strategies they adopted.

The alumni took many questions of the curious students and answered. The talk ended with a vote of thanks from the alumni coordinator.

Glimpses of the event:

Virtual Alumni Talk- 15th March, 2021

My Life In Galgotias

Starting with my sincere thankfulness to Galgotias University and its professors for giving me such platform to upgrade my technical and managerial skills. Those five years were the best five years of my life which pushed me forward in the ocean of professionalism.

It was a great start when I joined Mechelites Motorsports out of my comfort zone in fourth semester. It is the oldest racing team of Galgotias. Mechelites deals with building race cars and participation in racing competition across india so technically, along with the team my job was to build a race car that is competent enough to race on the track .

Mechelites taught me how to work in a team, how to maintain team bonding, how to apply your knowledge in real world and much more. Thanks to all my Seniors and Faculty Advisors for tremendous help.
