Description (min 250 to max 800 words)*

The School of Business has organized an alumni talk on “Discover your ideal career: A journey of experiential learning”. Alumni Mr. Shivang Aggarwal of Batch 2014-17 was the speaker for the day. He is working with Indus Valley Partners Private Ltd. as Operations Analyst. Ms.Yashika and Ms.Ankita welcomed Mr. Shivang Aggarwal and requested him to enlighten the students. He shared his journey and recalled the time when he was a student with Galgotias University. He shared the role of the classes and assignments in personality development and growth.

He mentioned that your interest is especially important, and one should choose specialization based on the interest because it affects their ability to perform. If one chooses the subject by just following others, one will end with frustration and will regret the decision. He beautifully explained how one can build confidence and what it takes to stand different from the crowd. He also spoke about the importance of networking and how one can work on it.

Mr. Agarwal continued discussion with how he selected his subjects for MBA Programme and the kind of struggle he went on. He also discussed the role of a resume and gave guidance on how one should prepare a resume.

Students were excited and asked many questions related to internship, specialization and how they should start their journey. He took on the

	<p>question one by one and specifically focused on the question where he talked about how anyone can opt for any specialization without any gender preference.</p> <p>The interaction was exceptionally good, and students were very motivated and will surely help them to choose their specialization and career wisely. The event was successfully organized and managed by the Student Organizing Committee and it was attended by more than 250 students of SOB. The session ended with a vote of thanks by the coordinator Dr. Snigdha Dash Associate Professor, SOB, Galgotias University.</p>
