8. Environment Awareness Camp

Environmentalism is an ideology that evokes the necessity and responsibility of humans to respect, protect, and preserve the natural world from its anthropogenic (caused by humans) afflictions. Environmental awareness is an integral part of the movement's success. By teaching our friends and family that the physical environment is fragile and indispensable, we can begin fixing the problems that threaten it. With the aim and objectives of spreading awareness among the population, on 20th February 2016, School of Humanities and Social Science, Galgotias University, Greater Noida organised an environment awareness camp at Dankaur village to sensitise the people. In this camp, a drive for plantation was also conducted. Total 60 Volunteers took part in the programme and participated. The event went in a steady way and we planted many plants around the village with our students, the people of the village including children, women, and men.

9. Voting Awareness Programme

India is said to be the largest democracy of the world, and if anybody wants to participate in this democracy or make a change, one should cast one's vote. Keeping in mind to create an awareness on voting a program was organized on 24th February 2016 by School of Humanities and Social Science, Galgotias University, Greater Noida at Dankaur village. Voting affects access to education, basic income, healthcare and childcare, tax policies, roads and transport facilities and other amenities. Make your voice heard and express your opinion through your vote. Not only does it give you the power to elect the right representative but it also helps you become a crucial part of the decision-making process affecting your regular life. When you vote, you get a platform to express your opinion on the issues you are concerned about. With this objective the event was organized. There were 35 Volunteers along with students of Galgotias University who took part in the programme. We had our team who was well trained in teaching how to vote and all.

10. Environmental sanitation and disposal of garbage & composting- teaching

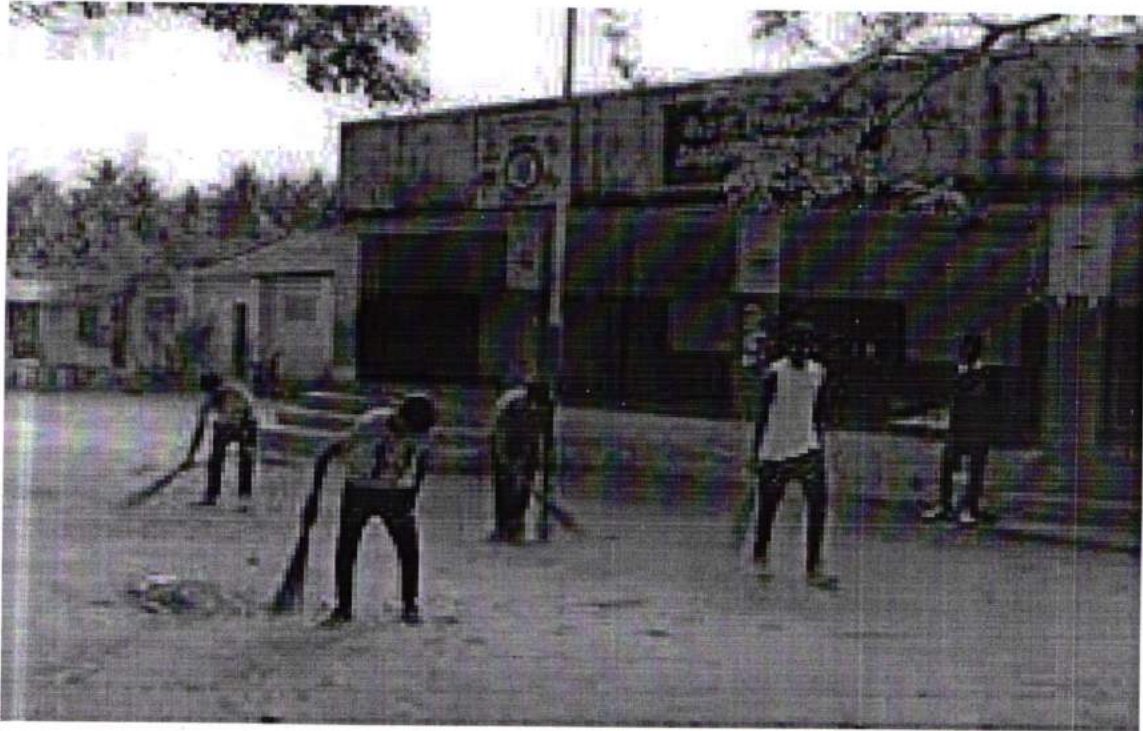

A clean and green environment is a basic ideology in sustainable development. A whole lot of diseases can be traced back to unhygienic environments and irresponsible waste disposal. The importance of cleanliness is known to all now, yet people try to keep their homes clean while they somehow just forget that they are responsible for the cleanliness of the environment as well, that they are responsible for any waste they generate and that just getting rid of it from their house won't help. It could be due to lack of knowledge or due to sheer laziness or due to irresponsibility. Sometimes all it takes is a reminder. With the aim and objectives, we bring you Cleanliness Drives through which we make people aware of the importance and methods of handling waste responsibly and try to take a step towards a cleaner environment. Keeping in mind the view, on 28th February 2016, Environmental sanitation and disposal of garbage & composting – Teaching villagers how to keep the environment clean, how to compose garbage was organized by School of Humanities and Social Science, Galgotias University, Greater Noida at Dankaur village. A total of 80 student volunteers along with faculty members participated in this event.
