Subject: Regarding the confirmation of co-authorship of Md Aftab Alam  
To: Dr Md Aftab Alam <aftab.alam@galgotiasuniversity.edu.in>

Dear Dr.,

I (Niyaz Ahmad: corresponding author) am confirming the co-authorship for Md Aftab Alam due to development of nanoformulation and their optimization and also performed Scanning Electron Microscopy (SEM) and Transmission Electron Microscopy (TEM) with a great collaboration etc as mentioned below published article:

### Published Articles:

1. Rutin-encapsulated chitosan nanoparticles targeted to the brain in the treatment of Cerebral Ischemia
2. Quantification of rutin in rat's brain by UHPLC/ESI-Q-TOF-MS/MS after intranasal administration of rutin loaded chitosan nanoparticles

## Abstract

### Background

Daunorubicin hydrochloride (DAUN · HCl), due to low oral bioavailability poses the hindrance to be marketed as an oral formulation.

### Aim of the study

To develop a natural biodegradable macromolecule i.e. Chitosan (CS)-coated-DAUN-PLGA-poly(lactic-co-glycolic acid)-Nanoparticles (NPs) with an aim to improve oral-DAUN bioavailability and to develop as well as validate UHPLC-MS/MS (ESI/Q-TOF) method for plasma quantification and pharmacokinetic analysis (PK) of DAUN.

Subject: Leadindia.ai : A report on the workshop (Deep Learning) @ Bennett University.

To: Dr. Siba Ram Khara &lt;pro\_vc@galgotiasuniversity.edu.in&gt;, Prof. Jayasankar Variyar &lt;pvacademics@galgotiasuniversity.edu.in&gt;

Cc: Vice Chancellor &lt;vc@galgotiasuniversity.edu.in&gt;, Dr.B. Balamurugan &lt;bbalamurugan@galgotiasuniversity.edu.in&gt;, Ganesh Gopal &lt;ganesh.gopal@galgotiasuniversity.edu.in&gt;

Dear Sir,

Workshop started by keynote of Dr. Deepak Garg, Director, Director leadingindia.ai, Hands-on session on deep neural network was also there. The following day were taken care by Dr. Vinit Jakhetiya, Project Lead and Dr. Sridhar Swaminathan, Project Manager, for this project. Dr. Vinit Jakhetiya has an extensive experience of international academic and industrial research Dr. Sridhar Swaminathan is a Post-Doctoral Fellow @Bennett University. Last day is started with the assessment test and some hands-on session with the people from industry.

To summarize, the following person attended;

1. Dr. Sanjeev Pippal
2. Mr. Nitin Jain
3. Dr. Lokesh Varshney
4. Mr. Damodaran
5. Mr. Ponmani raj

Dean School of Computing Science  
& Engineering  
GALGOTIAS UNIVERSITY  
\*UTTAR PRADESH\*

All qualified the assessment test except Dr. Lokesh Varshney, He was not at all interested, so I request for a replacement. Detailed report is attached, Those who missed the workshop or failed in this examination are allowed to take further assessment and workshops at other locations listed in [www.leadindia.ai](http://www.leadindia.ai).

## GALGOTIAS UNIVERSITY

### Deep Learning workshop @ Bennett University, Greater Noida

This is the second row of after Rajkot, Gujrat. This was three day event, from 5<sup>th</sup> to 7<sup>th</sup> June- 2018. The aim of such workshops it transforming India next revolution in providing AI man- power to the world. Target is to make cutting edge skills and supercomputing infrastructure available to the wider community of academicians and researchers throughout the country.

These series workshops aimed to 10000 trained people in Artificial Intelligence. 100 Research Groups working in different critical areas to solve some of the pressing problems in front of mankind.

Workshop started by keynote of Dr. Deepak Garg, Director, Director leadingindia.ai, who is awesome speaker and delivered at good breadth and depth of the topic in a very comforting style. There was awesome combination of pedagogy, humor and knowledge. In the second half of first day, hands-on session on deep neural network was also there. The following day were taken care by Dr. Vinit Jakhetiya, Project Lead and Dr. Sridhar Swaminathan, Project Manager, for this project. Dr. Vinit Jakhetiya has an extensive experience of international academic and industrial research Dr. Sridhar Swaminathan is a Post-Doctoral Fellow @Bennett University. Last day is started with the assessment test and some hands-on session with the people from industry.

They are many application of the AI and Machine learning ranging from Healthcare, Space Research, Remote Sensing, Cyber Security, Data Security and Privacy Protection, Education, Text Summarization, Personalized Information Retrieval, ext Content Annotation and Retrieval for regional Languages, Search Engine for Regional Language, insurance, Banking, Crime, Entertainment and many more.

Some photographs of the workshop is attached for reference.

### Schedule of First Workshop(05-06-2018 to 07-06-2018) :

Day 1	
8.00-9.00	<b>Registration</b>
Session 1 9.00-11.00	<b>Motivation</b> Foundations and Terminology of Deep Learning
Session 2 11.30-1.30	<b>Machine Learning Basics</b> Linear Regression, Logistic Regression Gradient Descent
Session 3 2.15-4.00	<b>Designing &amp; Optimizing Neural Network Model</b> Building Deep Models and Hyperparameter Tuning
Session 4 4.30-6.30	<b>Deep Learning Hacks</b> System/project level tricks and regularization strategies
Day 2	
Session 1 9.00-11.00	<b>Convolutional Neural Network</b> Computer Vision with CNNs
Session 2 11.30-1.30	<b>Recurrent Neural Network</b> Sequence Modelling with RNNs, Autoencoders, generative modelling in Deep Learning
Session 3 2.15-4.00	<b>Advanced Learning Topics</b> Hands-On Labs

Session 4 4.30-6.30	<b>Assessment Test</b>
<b>Day 3 - NVIDIA Deep Learning Institute Hands on Labs</b>	
The NVIDIA Deep Learning Institute offers hands on training for developers, data scientists and researchers, looking to solve challenging problems with deep learning	
10:00 - 12:00	Image Classification with DIGITS (lab)
1:00 - 3:00	Object Detection with DIGITS (lab)
3:15 - 5:15	Neural Network Deployment with DIGITS and TensorRT (lab)

Pre-requisite: Workshop Lab Material with Azure Notebooks

Our workshop notebooks based on Tensorflow and Keras can be practiced using free online platform Azure Notebooks.

- Account creation: To get started with Azure notebooks you have to log-in to <https://notebooks.azure.com/> using the Microsoft account. If you have an existing Microsoft account you can use it for logging in to Azure Notebooks. Otherwise you can create a Microsoft account in <https://account.microsoft.com/account>
- Getting started with Azure Notebook: After logging-in, you can click on “Library” tab to go into your library where you can “Add a new Library”. After creating a library, you can add new file which can be Notebooks of Python, R or F#.
- Using Existing Repos: If you have the URL of some existing repositories, you can clone them into your library. For example the below library can be cloned by visiting the URL. <https://notebooks.azure.com/jakevdp/libraries/pythondatasciencehandbook> After visiting the URL, you can press “Clone” to copy the entire folder/repository into your library. Then any modification can be done by opening, editing and running those .ipynb notebooks.
- Our Notebooks: During the time of workshop, we will share links to our notebook repository for your practice.

Pre-requisite: Workshop Lab Material with Anaconda Python in your Laptop/PC (Optional)

If you cannot use Azure Notebook services during the workshop, our same lab material can be used by installing Anaconda Python and necessary packages.

GALGOTIAS UNIVERSITY  
\* UTTAR PRADESH \*

#### Installation of Packages:

1. For installing the above mentioned python packages please follow the procedure mentioned below.
2. For installing new packages, system must be connected through internet.
3. Press start in windows and search for "Anaconda Prompt". When you will click on the application, a prompt window will be open, wait for few seconds.
4. You can check/ install any package in Anaconda Python by..  
`pip install package_name`

**f-ex:** pip install numpy  
and press Enter key after typing these commands.

**Note.** If you are installing numpy like this, it will give requirement already satisfied message on the prompt. that means package is already installed in the anaconda python.

Installing Opencv for Image processing

**Start the Anaconda Prompt:** Press start in windows and search for "Anaconda Prompt". when you will click on the application, a prompt window will be open, wait for few seconds.

**type command:**  
pip install opencv-python  
press Enter.

Installing Tensorflow and Keras:

**Start the Anaconda Prompt in administrator mode:** Press start in "windows", type "Anaconda Prompt", and right click on the application and click "Run as Administrator".

**Repeat step 2**

**f.ex-** pip install tensorflow  
pip install keras

**Help:** You can also take help of YouTube video: <https://www.youtube.com/watch?v=z0qhKP2liHs> for sample installation of Anaconda + Tensorflow + Keras

**Note:** If you want to work with regular python installed from (<https://www.python.org/downloads/>), installation of numpy, pandas, sklearn, nltk, tensorflow, keras libraries can be still done using "pip install" command similar to step 2 and 3. However, installation of Anaconda Python is highly encouraged rather than naïve python.

Others useful platforms

Tensorflow using Google Colab

Sign-in using Google Account to access free Online Tensorflow notebooks at <http://colab.research.google.com/>

GitHub Account

To join GitHub, the world's leading software development platform, visit the following URL. <https://github.com/>

GitHub is widely used for open-source software development, you can use it to

1. Make your project repositories easily accessible from anywhere
2. Maintain history and control versions easily
3. Collaborate with other developers that helps you to develop a network
4. Fork other developer's repositories and can show up your work to them.
5. Build a profile to impress the recruiter

# MANAGEMENT DEVELOPMENT PROGRAM

on

## How to set up a business venture?

### DATE & TIME

Saturday 28th April 9.30 a.m. to 4.30 p.m.

### VENUE

Galgotias University

### LEARNING OUTCOMES

- Business requirements that are not taught in B-Schools
- Attitude that needs to grow a business
- Starting a small venture as an experiment
- Processes for securing business venture funding
- Why successful entrepreneurs live simple lives?

### WHO SHOULD ATTEND

- Managers and Executives seeking new opportunities
- Aspiring Entrepreneurs and Intrapreneurs
- Students ready to start in their world of profession

### KEY RESOURCE PERSON

Mr. Aldrin Castelino

CEO, Inspire Infotech Pvt. Ltd.

Aldrin Castelino, holds a Masters Degree in Marketing from Jamnalal Bajaj Institute of Management Studies, Mumbai University with more than two decades of experience in sales. His public speaking and communication skills have made him successful in creating monopolistic markets in India.

### REGISTRATION

- Corporate Delegate/Entrepreneurs/Academicians \_\_\_\_\_ ₹ 1000/- per head
- Students \_\_\_\_\_ ₹ 500/- per head

### MDP ORGANIZING COMMITTEE

Chief Patron \_\_\_\_\_

Mr. Suneel Galgotia (Chancellor, Galgotias University)

Mr. Dhruv Galgotia (CEO, Galgotias University)

Patron \_\_\_\_\_

Prof. (Dr.) Renu Luthra (Vice-Chancellor, Galgotias University)

Prof. (Dr.) Sadananda Prusty (Dean, School of Business, Galgotias University)

MDP Convener \_\_\_\_\_

To  
The Dean  
School of Medical and allied Science  
Galgotia University  
Greater Noida

Subject: In Reference to your letter Dated 23/02/18 – for Internship and Clinical Training of your students.

Dear Prof. Pramod Kumar Sharma

Yatharth Group of Hospital has always tried to contribute in social wellbeing and allowing the budding technicians to do the internship in our hospitals would be a hand shake opportunity for us.

But keeping the patients as priority, we can allow only Internship for your 6 student of B.Sc (MLT), 5 students of B.Sc (CVT), 2 students B.Optomety and 5 students of BPT in our hospitals and would not like to conduct clinical trainings. As an academician, you would agree that for getting a worth study environment, the students has to stick to the disciplinary protocols of the hospital which are as under:

1. The student shall reach the hospital on allotted time and shall remain in their respective posting areas only.
2. The students if take a leave shall inform the departmental heads for maintaining the attendance.
3. If any student is found flickering with hospital rules or any patients, his/her internship shall be suspended with immediate effect.
4. To maintain regularity and take the internship seriously university shall deposit a certain amount for every student doing internship in the hospital.
5. The internship completion letter shall be handed over to the college authorities after the completion of the period.

If student are ready to undergo training with above mentioned conditions, please feel free to communicate further for the said program.

<sup>1</sup>School of Civil Engineering, Galgotias University, Greater Noida, Uttar Pradesh-201 308, India

<sup>2</sup>Department of Civil Engineering, National Institute of Technology Patna, Patna, Bihar, India

<sup>3</sup>Department of Civil Engineering, Kunsan National University, Kunsan, Jeonbuk, South Korea

(Received January 3, 2019, Revised April 25, 2019, Accepted April 30, 2019)

**Abstract.** This article deals with the application of reliability analysis for determining the safety of simply supported beam under the uniformly distributed load. The uncertainties of the existing methods were taken into account and hence reliability analysis has been adopted. To accomplish this aim, Generalized Regression Neural Network (GRNN), Extreme Learning Machine (ELM) and Gaussian Process Regression (GPR) models are developed. Reliability analysis is the probabilistic style to determine the possibility of failure free operation of a structure. The application of probabilistic mathematics into the quantitative aspects of a structure and improve the qualitative aspects of a structure. In order to construct the GRNN, ELM and GPR models, the dataset contains Modulus of Elasticity (E), Load intensity (w) and performance function ( $\delta$ ) in which E and w are inputs and  $\delta$  is the output. The achievement of the developed models was weighed by various statistical parameters; one among the most primitive parameter is Coefficient of Determination ( $R^2$ ) which has 0.998 for training and 0.989 for testing. The GRNN outperforms the other ELM and GPR models. Other different statistical computations have been carried out, which speaks out the errors and prediction performance in order to justify the capability of the developed models.

**Keywords:** beam; deflection; ELM; GPR; GRNN; prediction

### 1. Introduction

Over Building structures are constructed wherever the normal landscape should be modified to empower the fulfillment of framework ventures. Additional requesting basic prerequisites, generally fluctuating landscape and dynamic urban improvement make building structures of different sorts important. Structures are presented to exceptional dimensions of worry from traffic and various natural variables. Generally, every civil engineering designs and structures has its own uncertainties, extensively in loading, material strength and in the adopted analyzing techniques. The concept factor of safety was employed in order to assess the uncertainty in characteristic load and strength which has the criteria that load should be lesser than the material strength. In regarding to the designing and analyzing techniques appropriate methods should be adopted as it has to yield not only safety but also economic designs.

Beam is an inevitable element of any structure that resists loads applied laterally along its axis. The load applied on the beam generates shear forces and bending moments, which in turn create stress, strain and deflections. Beams are characterized by their support, length, size and material. The application of soft computing techniques has widely scattered on the issues on beams, columns, also beams and column joints. The demeanor of the joint shear beam-column is eminently problematic and non-linear,

especially when disparate variables influenced the joint shear strength. Yaseen *et al.* (2018) utilized the deep learning neural network (DLNN) for forecasting the joint shear strength of RC beam-column connections. The optimal input combination attributes were accomplished in their model 6 and model 14 with better regression values 0.88 and 0.92. The new hybrid artificial intelligence technique which merged the regression and optimization, Support Vector Regression with Firefly Optimization Algorithm (SVR-FFA) had benefitted the prediction of shear strength of Steel Fiber Reinforced Concrete Beam (SFRCB) (Abeer *et al.* 2018). The data was collected from different researchers which comprises of various concrete beam dimensional properties and the characteristics of concrete. This practiced technique exposed the best possible outcome in terms of forecasting accuracy with  $R^2=0.96$ . This article considered the simply supported reinforced concrete beams with various grades. The upcoming figure 1 provides the details of the beam.

Theoretically, the performance function ( $\delta$ ) can be computed by the following equation

$$\delta = \frac{L}{325} - \frac{5wL^4}{384EI} \quad (1)$$

where L is the length of the beam; w is the load applied per unit length; E is the modulus of elasticity and I is the moment of inertia. Also EI is called flexural rigidity and it is inversely proportional to the deflection. When the value of  $\delta \leq 0$  then it will be considered as unsafe and when  $\delta > 0$  then it is safe.

In general the term 'reliability' is utilized to raise the

## Abstract

This article employs Gaussian process regression (GPR), minimax probability machine regression (MPMR) and extreme learning machine (ELM) for prediction of uplift capacity ( $-$ ) of suction caisson. This study uses GPR, MPMR and ELM as regression techniques.  $L/d$  ( $L$  is the embedded length of the caisson and  $d$  is the diameter of caisson), undrained shear strength of soil at the depth of the caisson tip ( $S_u$ ),  $D/L$  ( $D$  is the depth of the load application point from the soil surface), inclined angle ( $\theta$ ) and load rate parameter ( $T_k$ ) have been adopted as inputs of GPR, MPMR and ELM models. The output of GPR, MPMR and ELM is  $P$ . The results of GPR, MPMR and ELM have been compared with the artificial neural network (ANN) model. The developed models have also been used to determine the effect of each input on  $P$ . This study shows that the developed GPR, MPMR and ELM are robust models for prediction of  $P$  of suction caisson.

**Keywords** Suction caisson · Minimax probability machine regression · Extreme learning machine · Gaussian process regression · Uplift capacity · Artificial neural network

## 1 Introduction

The uplift capacity ( $P$ ) of suction caissons is an important parameter for designing offshore structures. So, the determination of  $P$  of suction caisson is an important task in

ocean engineering. The value of  $P$  depends on different parameters such as passive suction under caisson-sealed cap, self-weight of caisson, frictional resistance along the soil-caisson interface, submerged weight of soil plug inside the caisson and uplift soil (reverse end bearing) bearing pressure (Albert et al. 1987; Rauch 2004). Researchers use different methods for determination of  $P$  of suction caisson (Goodman et al. 1961; Hogervorst 1980; Tjelta et al. 1986; Larsen 1989; Steensen-Bach 1992; Dyvik et al. 1993; Clukey and Morrison 1993; Whittle and Kavvadas 1994; Clukey et al. 1995a, b; Cauble 1996; Datta and Kumar 1996; Singh et al. 1996; Rao et al. 1997a, b; El-Gharbawy and Olson 2000; Zdravkovic et al. 2001; Cao et al. 2001, 2002a, b; Luke 2002; Cho et al. 2002). Clukey et al. (1995) determined the response of suction in normally consolidated clays for cyclic TLP loading conditions. Cauble (1996) conducted experiment for determination of behavior of suction caisson in clay. Cao et al. (2001) discussed results of centrifuge test of suction caisson in clay. Luke (2002) described experimental results of suction caisson for determination of axial pullout. El-Gharbawy and Olson (2000) used finite element method (FEM) for verifying the experimental results. The available methods

Received 01 May 2018; revised 23 July 2018

Compression index determination is one of the paramount task for the civil engineers, hence this paper target to predict the compression index of clay by adopting Genetic Programming (GP). The data was amassed by the soil property from consolidations tests on undisturbed samples at west coastal areas in Korea. The optimized equations for determining the compression index can be developed with the help of the adopted intelligent technique as it was based on the dry density ( $\gamma_d$ ), initial void ratio ( $e$ ), liquid limit ( $w_l$ ), natural water content ( $w_n$ ) and plasticity index (PI). The efficiency of the adopted model was compared with the existing empirical relations and GP has proved its betterment. This in turn leads to the reduction in executing the experiments in determining the compression index. These equations are very much suitable for the primitive computing on the settlement of the ground. Various statistical analyses were utilized for assessing the capability of the adopted technique.

[**Keywords:** Compression Index; Consolidation; Genetic Programming; Liquid Limit; Prediction; Settlement; Void ratio]

### Introduction

Generally, clay is soft in nature and has various characteristics due to different rocks and deposits. Marine clays are generally fibrous and more compressible in nature with more water content and eventually less bearing capacity. Hence, soft ground must be improved in order to utilize them. Ultimately, the compressibility characteristics of soft clay are to be computed with more care for large-scale projects like harbour, ports, etc. The paramount problem in the marine clay is the use of foundation material, which depicts a significant issue in the engineering property.

Ground settlement estimation is one of the essential parameters for designing any civil engineering structure. The determination of Compression Index ( $C_c$ ) is a critical task for computation of ground settlement. Geotechnical engineers generally use Oedometer test for determination of  $C_c$ <sup>1</sup>. However, oedometer test is a time-consuming procedure. Various researchers have developed various correlations for determination of  $C_c$ <sup>2-15</sup>. The above-mentioned methods have their own uncertainties and limitations.

The utilization of soft computing and intelligent model techniques has resolved many problems in various fields<sup>16-24</sup>. One among the intelligent model is

Genetic Programming (GP), which was inspired from biology and the general idea of survival of the fittest. GP has resolved many geotechnical engineering issues with optimized solutions<sup>25-30</sup>.

This article adopts one of the intelligent technique Genetic Programming (GP) for determination of  $C_c$  based on natural water content ( $w_n$ ), dry density ( $\gamma_d$ ), initial void ratio ( $e$ ), liquid limit ( $w_l$ ), and plasticity index (PI). The data has been collected from the work of Yoon et al., (2004). The dataset contains information about  $C_c$ ,  $w_n$ ,  $\gamma_d$ ,  $e$ ,  $w_l$  and PI.

### Details of present analysis

Genetic Programming is a bio-inspired machine learning domain-independent technique that genetically progenies a denizen of computer programs to take care of an issue. In particular, GP iteratively disguises a populace of computer programs into another era of projects by exploiting analogs of innately happening genetic operations<sup>31</sup>. The genetic operations carry crossover, mutation, reproduction, gene duplication and gene expunction. The following are the major steps that the user has to specify for the primitive version of Genetic Programming:

1. The collection of terminals for each branch of the to-be-developed program. (Example: the

**Culinary Workshop – Indian Culinary Forum in association with IHM-PUSA on Wednesday-19/12/2018**

Dean School of Hospitality (Prof. OnkarNathMehra), Chef Vikas Sharma (Assistant Professor) & a team 10 students attended a Culinary workshop on “Art of Food Plating, Food Photography & Food Videography & sensory Evaluation” organized by Indian Culinary Forum in association with Institute of Hotel Management-PUSA on Wednesday i.e. 19/12/2018 at IHM-PUSA campus.

The main attraction of the event was **Saba Gaziyani** India’s foremost food stylist. She presented a power point presentation on various innovative techniques of food plating keeping in mind the authenticity of the cuisine. She also shared various useful tips on food photography & videography (different cameras, its techniques etc.). She shared her journey from working in hotels to India’s foremost food stylist entrepreneur.

Among the guest of the honor’s there were many high dignitaries from the field of Hospitality such as **Mr. Anil Bhandari**(Chairman AB Smart concepts), **Chef Davinder Kumar** (President Indian Culinary Forum & Executive Chef Hotel Le Merridien, New Delhi) & **Mr. Kaml Pant** (Principal IHM-PUSA).

Mr. Anil Bhandari shared various inputs and key notes about Indian Cuisine & its uniqueness with students.

At the end of the program there was a small competition organized and the theme was “Plating skills of Indian Food”. Galgotias University first year student Ms. Deepshikha also participated in the event and got lots of praise from the judges for her excellent plating of Indian food.

It was a unique learning and confidence building experience for our students.

## Galgotias University & Indian Culinary Forum (ICF)

### Knowledge Summit Program held on 18-3-2019 at Hotel Pride Plaza, Aerocity, New Delhi

#### "Knowledge Summit: Brand building through Taste, Touch, Sight, Smell & Sounds"

On Monday, 18 March 2019, the Galgotias School of Hospitality & Indian Culinary Forum (ICF) presented "Knowledge Summit: Brand building through Taste, Touch, Sight, Smell & Sounds".

Master Chefs from across the world & Heads of hotels addressed Galgotias University students; students present from other universities, faculties & budding chefs at Hotel Pride Plaza Aerocity, New Delhi.

#### FLOW OF EVENTS

1. Galgotias School of Hospitality along with Indian Culinary Forum (ICF) presented a powerful knowledge session with Tag Taste as our knowledge partner & Hotel Pride Plaza as our hospitality partner. This prestigious event was held on Monday, 18 March 2019 at Hotel Pride Plaza Aerocity, New Delhi.
2. The lamp lighting was done by Mr. Dhruv Galgotia (CEO Galgotias University), Dr. Onkar Nath Mehra Dean School of Hospitality (Galgotias University), Legendary Chef DK - Davinder Kumar (President ICF), Chef Bill Marchetti (Head Charcuterie Operations), Mr. Anil Bhandari (formerly: CMD of ITDC Ashok Group of Hotels, MD International Travel House, An ITC Company, MD Hotel Corporation of India), Group Captain DV Arora (HR expert & a War Veteran).
3. The event was flagged off by Chef DK's welcome address & the inaugural address by Dr. Onkar Nath Mehra, Dean School of Hospitality (Galgotias University). Respected Mr. Anil Bhandari delivered a very meaningful keynote address.
4. The event was spread into 4 individual unique learning activities:-
  - a) Panel-1: How well is the food industry leveraging the sensory framework?  
(Moderated by: Raj Prity - Sensory Head Tag Taste)
  - b) Presentation on Ayurgenomics- How genetics plays a crucial role in the prakriti of a person.  
(By: Dr. Mitali Mukherji & Dr. Bhavana Prasher - Sr. Scientists CSIR)
  - c) Panel-2: Open house for students with India's successful/entrepreneur chefs  
(Chaired by: Chef Abhijit Saha - Founder Avant Grade Hospitality)
  - d) Beverage Sensory Workshop  
(Conducted by: Dr. Binod Maitin - Global Sensory Expert, ex- Diageo)

School of Hospitality & Tourism  
Galgotias University (UP)

5. **Mr. KB Kachru (Chairman Ameritus Radisson Hotels)** addressed the august gathering, blessed our dear students with mantras for success for their career in hospitality. **Ms. Rita Shah COO of Hotel The Hans Plaza** was also present to grace the prestigious event. **Chef Gissur (Former President of WACS from Iceland)** specially came to India & was present virtually for the entire flow of the event to bless our students. **Chef Rajeev Bansal - Group Chef Culinary Development, Taj SATS Air Catering** also grace the occasion.
6. **"A Wow student's experience":** The students & Faculty present thoroughly enjoyed the event. This was a unique session of gyan being shared by the galaxy of leading Master Chefs from across the world & Heads of Hotels from the hospitality industry.
7. The knowledge session concluded in the evening with the Vote of Thanks by **Chef Vivek Sagar (Secretary, ICF) & Dr. Onkar Nath Mehra (Dean School of Hospitality, Galgotias University)** with motivational words of wisdom.

School of Hospitality is grateful to our:

Chancellor Mr. Sunil Galgotia for his blessings & CEO Mr. Dhruv Galgotia in supporting this event with his graceful presence.

Our sincere thanks to legendary Chef DK - Devinder Kumar, Chef Arun Chopra, Prof. Ashia Qureshi (Dean School of Nursing, Galgotias University), Dr. Atul Sethia (Dean School of Architecture, Galgotias University) & the entire team of ICF & GU who have actively supported the event & helped us in making it a grand success.

# LEGAL AID CAMP

ORGANISED BY LEGAL  
AID COMMITTEE.  
SCHOOL OF LAW  
GALGOTIAS UNIVERSITY

Date: April 28, 2018  
Place: Dankaur Village

Dean School of Law  
Galgotias University  
Uttar Pradesh

Dean School of Law  
Galgotias University  
Uttar Pradesh

SCHOOL OF LAW

It was organized by District Legal Service Authority, Gautambudh Nagar in association with legal aid society, Galgotias University in Dankaur village on April 28, 2018. The legal aid camp started with the speeches of Mr. Afroz Khan and Mr.Parashar, panel advocates who explained the concept of law to both the students and the crowd gathered at the Nagar Panchayat office, Dankaur and emphasized on the need to have more and more legal aid centers so as to help the greatest number of people. Following this the students did a nukkad natak on the streets of the village focusing on the much debated baba culture and received great appreciation from the crowd. The nukkar natak helped the people to understand the problem of placing blind faith in the false religious practices and motivated them not to fall for these traps. A survey regarding the general problems and the lack of basic amenities was also done by the society through which the people first gained confidence in sharing their problems with the students. The Society recognized the most common problems faced by the people and pledged to solve them through their efforts. The event concluded with delivery of vote of thanks by Mr. Manvendra Singh and Mr. Utkarsh Yadav, Assistant Professors, Galgotias University to Shri BI Kushwaha, PCS, Nagar Panchayat, Dankaur for his never-ending co-operation and also invited anyone with a legal problem to the Legal Aid Cell, Galgotias University.

List of Student Participants:

**Sustainable development and contemporary  
environment**

**DATE OF THE EVENT: 5 May, 2019**

**NUMBER OF STUDENTS PARTICIPTED: 30**

I would like to thank to our faculty who have given this opportunity to go and spread awareness about environment to the children my goal was to give best of mine over the environment and make sure that attendees have captured the most essential elements but as I looked at the crowd I realised that they needed to understand how to make change. I had a great experience with the students of DAFFODILS PUBLIC SCHOOL the students were very cooperative with us and it was my first experience of teaching I told them about the environment awareness.

I taught them how to keep their environment clean and all the possible ways they can do to keep environment clean the students are already having the lot of knowledge about the global warming and environment issues. I asked them many questions so that they can learn more from me and students have not of knowledge apart from our topic. I also taught them about the MC Mehta case in general so that we can learn that why our Taj Mahal is yellow in colour. The students there were a lot interested to learn more. I wish I can get another chance to go back and spread knowledge to those students.

They make the conversation in two ways; firstly listen to them and then show a guideline for them. Anything you want to change in personal or professional life can be tied back to environment if you change your environment you eliminate the impact that the previous environment has. We also ask some questions to the students related to environment that are name two natural resources that are available on the earth and the give the correct answer that is soil and water they also know the gases that cause greenhouse effect and they are carbon dioxide and hydrogen. They also said that water is the basic essential for life.

I would like to thank now for giving us this opportunity and spread awareness among the environment. It was really a great experience for my team and also for me. We will be always really thankful to you. We express express our sincere gratitude to the almighty god for his blessings and help in completion of this workshop.

In the quest for development of Legal Research, the Centre for Legal Research and Pedagogy organized a session on online legal database by Westlaw. The training programme was conducted by Ms. Lipika Malhan of Westlaw. She explained and elaborated upon the available tools for legal research by practical demonstration to the students. The students actively participated to learn and clear their queries. They were exposed to intricacies of title search, case search and Boolean search. The Team of CLRP was Coordinated by Asst. Prof. Sayan Das.

School of Media and Communication Studies of the Galgotias University organized an international conference in collaboration with Indian Institute of Mass Communication, New Delhi on March 26, 2019. The conference focused on "The Challenges of Media, Democracy, and Development in the Afro-Asian Context"

8/4/2019

School of Media and Communication Studies of the Galgotias University organized an international conference in collaboration with Indian Institute of Mass Communication, New Delhi on March 26, 2019. The conference focused on "The Challenges of Media, Democracy, and Development in the Afro-Asian Context". 19 participants from 18 countries presented their research papers at the conference.

KG Suresh, the Director General of IIMC, in his keynote speech focused on democratic practices in journalism and said that media must question the government on behalf of the people but should not act as opposition. He reiterated that in a democratic country the government is elected by the people and hence media must respect the mandate.

Prof. Pradeep Kumar, PVC, in his presidential address emphasized that while while media sets agenda in a democracy, it should play a positive role in the society.

Earlier the Chancellor, Shri Suneel Galgotia welcomed 19 participants from 18 African and Asian countries to the campus in a written message. He urged upon the participants to explore a new model of development for Afro-Asian Asian nation and think about de-westernizing the models of development and democracy. Vice Chancellor, Prof. Renu Luthra inspired the international participants in the morning session.

Prof. Debashis Chakrabarti, the Dean of School of Media, in his valedictory address said that the media persons in Asian and African countries must rethink that whose development the media talks about. He asked the media protects whose democracy- for a handful of elites or for millions of masses in the countries?

He stressed that Asian and African journalists are far brighter than the rest of the world but they enjoy little freedom in questioning the system and advocating on behalf of the people in practice.

All faculty members participated in the international conference and Dr. Harish Kumar and Dr. Tasha Singh Parihar presented papers amongst the international participants of different countries of Africa and Asia.

Season's Greetings & a very  
**Happy New Year**

*"One child, one teacher, one book,  
one pen can change the world."*

*- Malala Yousafzai*

We are pleased to inform you that Centre for Legal Research & Pedagogy (CLRP) in collaboration with Center for IPR Studies (CIPRS) & Centre for Corporate and Business Law (CCBL), School of Law, Galgotias University is organizing **7 Days Faculty Development Programme (FDP) on Contemporary Research Methodology & Innovative Pedagogical Tools** from 17th to 23rd January 2019 (Thursday to Wednesday).

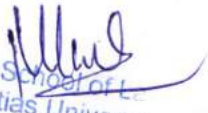

The FDP is designed to deliberate on the recent challenges and trends in Research Methodology and changing facets of teaching learning process in contemporary India. The FDP aims at developing a research outlook and a frame of mind for carrying out research and therefore an endeavor is carried out through this FDP so that professional and academic development of faculty members and legal professionals can grasp the details in order to get proper perspectives. Innovations and Technology has equipped the pedagogy and research to enhance and enrich the teaching learning process altogether to nourish fast-forward generations prioritizing outcome-based education.

The FDP aims to deliberate on: Innovative Pedagogies; Technologies in Teaching & subsidiary components of Teaching; Cotemporary Research Methodology; Statistical Softwares & Plagiarism; Academics: Innovations, Technology, & IPR; Future & Growth of Academics.

#### OBJECTIVES OF THE PROGRAMME

The FDP aims at training aspirants who are desirous to improve their teaching as well as research skills and shall cover the following aspects of teaching and research:

- To provide indepth understanding about innovative pedagogy of research and teaching.
- To have an understanding about preparing the syllabi and Course module inconsonance to OBE.
- To provide understanding about various methods of research and to make them aware about role of legal research in the development of law.
- To enhance research capabilities of faculty members especially pertaining to empirical research.
- To have first hand practical experience of learning methods of sampling, data collection and data tabulation and analysis using statistical software like SPSS, QDA Miner etc.
- To have an understanding about research ethics and reporting of research findings.
- To know the effective methods of avoiding plagiarism.
- To equip with the use of Computer, Internet, Office tools for Academic Research & Pedagogy.

  
Dean School of Law  
Galgotias University  
Uttar Pradesh

### PROGRAMME IMPACT-EXPECTED OUTCOME

- The FDP aims to enhance the teaching and mentoring skills of the faculty members and participants backed by research and thereby to become more efficient facilitators of academic delivery using modern tools maximizing outcome-based education. The program will cover various topics such as Syllabi and Course Module, Testing and Evaluation & Question paper setting, Creativity in Teaching with insights into Innovative Pedagogy, New dimensions of Research Methodology, teaching the technology of Teaching.
- The participants would go to their parent institutions equipped with comprehensive innovative pedagogies and quality research skills which would help them in their entire journey in academics. It will enhance the employability skills enriching quality research work to be published in reputed journals at national and international level having impact on the society at large.

### WHO SHOULD ATTEND

The FDP is designed especially for Academicians / Faculties working in various Universities, Colleges and Professional Institutes, Research Scholars and other associated Professionals.

### REGISTRATION FEE

Registration fee for Participation is **Rs.1500/-** (for Faculty & Research Scholars) & **Rs.500/-** (for Internal GU Faculty) per person. Fee is non-refundable.

### REGISTRATION DETAILS

Online Registration can be done through this link:  
[https://docs.google.com/forms/d/e/1FAIpQLSdSL7WkCf541zy5evvp9pL\\_5GVbimZ4wVYfZEynKqODJjx9Qg/viewform](https://docs.google.com/forms/d/e/1FAIpQLSdSL7WkCf541zy5evvp9pL_5GVbimZ4wVYfZEynKqODJjx9Qg/viewform)

And for Offline/Manual Registration, Registration form is attached hereinafter.

### MODE OF PAYMENT:

1. Online Payment (through NEFT/RTGS/IMPS)

#### Particulars Bank Details

- Name of Payee: Galgotias University
- Name of the Bank: Punjab and Sind Bank
- Bank Branch: Kaison Tower, 1st Floor, Alpha Commercial Belt-I, Alpha Rd, Alpha I, Greater Noida, Uttar Pradesh 201308
- Bank Account Number: 09701100000025
- IFSC Code: PSIB0020970

In case of online payment, the participant must upload the soft scanned copy of the transaction receipt along with the online registration form on or before the last date on this link:

[https://docs.google.com/forms/d/e/1FAIpQLSdSL7WkCf541zy5evvp9pL\\_5GVbimZ4wVYfZEynKqODJjx9Qg/viewform](https://docs.google.com/forms/d/e/1FAIpQLSdSL7WkCf541zy5evvp9pL_5GVbimZ4wVYfZEynKqODJjx9Qg/viewform).

No hard copy of the registration form is required if payment is made online.

### 2. Demand Draft

Demand Draft should be drawn in favour of 'GALGOTIAS UNIVERSITY UTTAR PRADESH' payable at Noida. The soft copy of the DD along with registration form shall be sent to [clrp@galgotiasuniversity.edu.in](mailto:clrp@galgotiasuniversity.edu.in) and the hard copy of the DD along with the registration form should reach us at the following address on or before 15th January 2019:

The Dean, School of Law,  
Room No. A-509, Galgotias University,  
Plot No.2, Sector 17-A, Yamuna Expressway,  
Gautam Buddh Nagar, Greater Noida,  
Uttar Pradesh, 201308, India.

**Last date for Registration:  
15th January, 2019.**

Accommodation will not be provided.

### SCHEDULE OF THE FDP

Schedule of the FDP will be communicated by e-mail/whatsapp to the registered participants in due course. Feel free to clarify your doubts.

**REPORT OF DAYS FACULTY DEVELOPMENT PROGRAMME (FDP) ON  
CONTEMPORARY RESEARCH METHODOLOGY & INNOVATIVE  
PEDAGOGICAL TOOLS  
[17<sup>TH</sup> – 23<sup>RD</sup> JANUARY 2019]**

Learning and development in the field of Law is dynamic and as part of academics giving consideration to it is important for growing as a teacher. Keeping this in mind, School of Law, Galgotias University organized the Faculty Development Programme in its continuous effort for upgrading its faculty members. The programme was organized on the topic of **"Pedagogy and Multi-Disciplinary Research Methods"** under the guidance of Program Chair, PVC & Dean, School of Law and the Faculty Co-ordinators from School of Law, Galgotias University during **24 July to 30 July, 2017**. It was an activity-based programme where there were methodological sessions in the first half, which was put into practice in the second half of the day. It was just not a one-way process of learning rather a multi-pronged process of developing ourselves as faculty members.

Day 1 of the National Faculty Development Program was flagged off by our Hon'ble Pro Vice-Chancellor Prof. (Dr). Renu Luthra, Vice- Chancellor, Prof. (Dr.) Jayashankar Variyar Pro-Vice-chancellor and Dean School of Law, Prof. (Dr.) K.G. Gardner Galgotias University. Welcome address was given by Faculty Coordinator and Inauguration – "Chief Guest"- Research, Scholar and Scholarship - Prof. (Dr.) Bharat H. Desai.

The lecture on Day 1 was delivered by Prof. (Dr.) Siba Ram Khara on Impactful Classroom Delivery and board work. Subsequently, by Prof. (Dr.) Babu T. G. on Contemporary Outcome based Education.

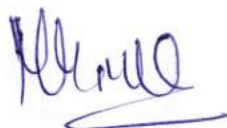

Day 2 of the Program was initiated by (Dr.) Lisa P. Lukose, on Innovations in Academics and IPR. Subsequently, by Prof. (Dr.) Pardeep Kumar on Relevance of Accrediting Agencies and Future of Academics and further by Prof. (Dr.) H.C. Rai on Reforms in Examination.

Day 3 and Day 4 was activity based. Day 5 of the Program was initiated by Prof. (Dr.) Tarun Arora on Research Methodology. Subsequently, by Prof. (Dr.) Kiran Gardner on Teaching to Self-Learning.

Day 6 of the Program was initiated by (Dr.) Gaurav Singh, Assistant Professor, IGNOU and (Dr.) Ashutosh Kumar, Associate Professor on Role of Innovation in Online Education.

Day 7 of the Program lecture was delivered by (Dr.) Sanjeev Kumar on Statistical Software and Office tools. Day 6 and Day 7

The workshop provided immense learning opportunity to the participants that they would be implementing during the teaching- learning process in the classroom.

Dear Mam,

**Sub: In reference to letter no F1/GUSONUP/PF/561/2019, dated 15 Apr 2019.**

We are happy to permit your students to undergo a supervised and guided clinical nursing experience as per the rotation plan for this academic year (Jul 2019 to Jul 2020). For further any clarification/discussion we may sit together as and when required.

Thank you.

Yours sincerely,

## REPORT ON HEALTH CAMP IN JAYPEE HOSPITAL

A free health check-up camp was organized by School of Nursing on 14<sup>th</sup> November 2019 in order to celebrate children's day. It was really a unique way to celebrate the very day. For setting up the medical camp the school authority collaborated with the Jaypee hospital.

Free full body checkup and free pathological test camp were set up in the Hospital premises. The camp was exclusively organized for poor people who hardly can afford quality treatment for their physical issues. The students of the school worked as volunteers to manage the queue and the crowd.

The camp started its work from 8 a.m. Many names were already enlisted for health checkup. Many specialist doctors along with three renowned surgeons were present in the camp. After checking up the patients, some of the required medicines were also provided to them.

A group of people were educated about the maintenance of good health, nutrition and prevention from disease to maintain healthy life style.

A health education session was also taken in University for the faculty of Galgotias University by Dr. Ashia Qureshi, Dean SON.

Dear IUCEE Consortium Leaders,

Dr. S.D. Rajan (<http://structures.asu.edu/rajan/>) is a very distinguished Professor of Civil Engineering at Arizona State University. He is also very active as international expert and advisor for IUCEE for the past several years. He is instructor for the "Effective Assessment" Module for IIEECP (IUCEE International Engineering Educators Certification Program).

Dr. Rajan is willing to sponsor 4 faculty in the field of Civil Engineering from IUCEE Consortium Institutions, for participation in ICTIEE 2019 at any one of the two locations: Hyderabad (Jan 7,8) or Chandigarh (Jan 10,11). The sponsorship amount is Rs. 10,000 each.

Please nominate suitable faculty from your institution before, Friday, Dec 14, 2018, by sending an email to me. I will interact with them and finalize the selection of successful candidates.

Best wishes  
Krishna Vedula

Prof. (Dr.) Renu Luthra

Cc: "chancellor@galgotiasuniversity.edu.in" <chancellor@galgotiasuniversity.edu.in>, "vc@galgotiasuniversity.edu.in" <vc@galgotiasuniversity.edu.in>, "r.mathur@galgotiasuniversity.edu.in" <r.mathur@galgotiasuniversity.edu.in>, "pvcacademics@galgotiasuniversity.edu.in" <pvcacademics@galgotiasuniversity.edu.in>, "avadeshkumar@galgotiasuniversity.edu.in" <avadeshkumar@galgotiasuniversity.edu.in>

Dear Leaders of Galgotias University,

*Dr. Ganesh Babu*

Greetings !

Your active participation at our Second Annual Leadership Summit, has allowed us to create a very valuable forum for sharing and collaboration among engineering educators in India and around the world. The Summit at Goa was attended by 106 leaders of 40 IUCEE Consortium Institutions along with 18 global experts and 13 industry leaders. As you will recall, the objective of the Summit was to find ways for the IUCEE institutions to set up clusters of collaboration along the lines implemented successfully by the industrial sector. Following Cluster topics were identified:

- Teaching and Learning Centers ✓
- IUCEE International Engineering Educator Certification Program
- Engineering Explorations in First Year
- Outcomes Based Education ✓
- Engineering Education Research and Ph.D. program ✓
- Virtual and Remote Laboratories ✓
- Engineering Projects in Community Service ✓
- Entrepreneurship // ✓
- Grand Challenges Scholar Program
- Industry 4.0 //

*B*  
Head  
Dept. of Civil Engineering  
Galgotias University

Please review the above list and

- confirm which of these Cluster topics are of interest to you.
- send me names and emailids of the leadership team (1 per topic) from your institution, who will take these collaborations forward.

We will soon begin biweekly webinars in these Cluster areas in order to facilitate the process of collaboration.

During ICTIEE 2019 (<http://ictiee.org/ictiee2019>), we will conduct workshops for more faculty from your institution in the above topics, so that we can build faculty capacity for the cluster collaborations. It is, therefore, very important for you to plan to send a large contingent of your faculty to ICTIEE 2019. Some of your faculty leaders may also be

*Ch*  
Head  
Dept. of Electrical, Electronics & Comm. Engg.  
Galgotias University

1468

qualified to help lead these workshops. Please send their names and emailids so that I can invite them to be part of teams to plan workshops.

Looking forward to your response as soon as possible, before August 31.

Best wishes

Krishna Vedula

Around 60 Institutions from India and 50 Foreign delegates participated in IUCEE Summit at Goa. 20 groups were formed for 60 Institutions and each one presented the change initiatives implemented in the institution in last two years.

### Summary of points captured on 21/07/2018

- Some Universities have launched Courses on disruptive technology for engineering and Courses on Entrepreneurship development
- Answers must be collected along with questions papers and answers must be made available to students after examination.
- One course shall be launched on **designing thinking**.
- University must create Knowledge sharing platform.
- Students must be facilitated to visit community to find real problems and then apply knowledge to solve the problems. *EPDLS*
- University must make platform for students to take up research/project initiative in multidisciplinary domain.
- Marwari University Rajasthan offered 48 courses related to placement.
- New faculty must undergo two weeks pedagogy course before taking up courses.
- Slow learners can be called different learners
- It important for University to assess or collect evidence that students have learned. University must make good system and processes for this.
- It's not the implementation of initiative or idea, Its more important to assess the outcome of initiative to see the success of Initiative or ideas
- University shall establish Wellness Centre to interact with students and find psychology states, diverse back ground, to understand their interest, to understand their difficulty, to understand their problems, to get feedback on hostel environment, food habit. The detailed data to be analysed to see in-depth issues.
- University must do the analysis of quality of intake.
- University must think of making a smart campus.
- University must take initiatives on setting up of Water management and wasted management in campus where faculty and students will take projects in the areas.
- In first year, the course Elements of Engineering will be offered. To tell students what is engineering, how to do lab, what is engineering design, what is engineering ethics, what are socially relevant solutions, what are professions in engineering, etc, No lecture will be held in this course, only guest presentation and other activities will be done

*IMP*

  
Head  
Dept. of Civil Engineering  
Galgotias University

  
Head  
Dept. of Electrical Electronics & Comm. Engrg.  
Galgotias University

- University must establish a centre for quality of engineering education. It will analysis academic practices and convert the work in article for publish.
- Education experience evolves over time on doing good practices

### Summary of points captured on 20/07/2018

- Students must focus on real Indian problems water pollution, air pollution, etc.
- Dr. Feisel told that student learning must shift From “to know” to “to be able to do”
- Faculty must use Proven technique of teaching for impact Learning. Different Students learn different ways, so they are to Choose appropriate tools
- University must have culture to give Rewards for good teaching learning as Recognition
- Dr. Jenna Carpenter emphasized that the skills of 21 century engineers must encompass Global awareness, Entrepreneurship and Contemporary issues
- Dr. Scalone told that University must have a centre for Research on teaching learning.
- University must also have Centre of teaching learning
- Dr. Cindy Atman also emphasized on High quality research on engineering education in University.
- Dr. Astatke told that University must establish Virtual lab
- Victoria Dorman told that University must offer courses on Entrepreneurs and design thinking. Princeton University gives several courses in entrepreneurship and internship.
- In every University, Significant number of faculty members must do research in engineering education and publish high quality papers

Respected Sir/Madam

We are pleased to inform that the Galgotias University is organizing the FDP cum Workshop **Feb, 2019 on IUCEE International Engineering Educators' Certification Program.** (School Wise) are requested to nominate the faculty members for this FPD/Workshop. The nomination performa is mentioned under. As per the directions of our Hon'ble Vice Chancellor, the Workshop will be conducted as dates are mentioned above and maximum limit for participation has been decided that Faculty who are having off on Sunday and Monday are to be nominated so that no lecture adjustments are needed. However, they can avail one leave compensation against the both days.

## Three-day Workshop

On

### IUCEE International Engineering Educators' Certification Program

PHASE I - Pre-certification Workshop

Feb 24 - 26, 2019

We are pleased to inform that the Galgotias University is organizing the FDP cum Workshop from **24 Feb to 25 Feb, 2019 on IUCEE International Engineering Educators' Certification Program**. Deans of Engineering (School Wise) are requested to nominate the faculty members for this FDP/Workshop. The eligibility, details and nomination performa is mentioned under. As per the directions of our Hon'ble Vice Chancellor the FDP cum Workshop will be conducted as dates are mentioned above and maximum limit for participation is 30. It was decided that Faculty who are having off on Sunday and Monday are to be nominated so that they can be involved full day and no lecture adjustments are needed. However, they can avail one leave on 23 Feb for leave compensation against the both days.

**ABOUT IUCEE:** Indo Universal Collaboration for Engineering Education (IUCEE) was conceptualized by over 150 leaders of engineering education and businesses from US and India in 2007. The name was modified in 2016 from Indo US Collaboration for Engineering Education to reflect the more global nature of the collaborations. IUCEE is one of the founder members of IFEES (International Federation for Engineering Education Societies), which was the primary facilitator for the growth and development of IUCEE.

The vision of IUCEE is to improve the quality and global relevance of engineering education and research in India with related benefits to engineering educators around the world. The major focus is on faculty development, student development, curriculum development, as well as improved teaching technologies & engineering education research.

The assessment of these programs has revealed the need for rigorous training in the skill of effective teaching in engineering for the vast majority of faculty in these colleges.

#### ABOUT IIEECP

Phase I – PRE-CERTIFICATION WORKSHOP

1424  
Head  
Dept. of Civil Engineering  
Galgotias University

Head  
Dept. of Electronic, Instr. & Comm. Engg.  
Galgotias University

This is a three-day hands-on face-to-face workshop by global experts in engineering education and is designed to enable the participants to begin to understand the principles of learner-centred teaching; to design or redesign a course and its elements, emphasizing learning outcomes; to develop different teaching and active learning strategies for implementation of these elements, to design formative and summative assessment tools and rubrics for outcomes assessment.

**About Resource Person:**

Dr. Veena Kumar, Director of HEECP, is a Professor at the University of Maryland, USA. She has vast experience in curriculum development, on-line instruction and teacher training.

**Nomination is required as per the details:**

1. School of Computer Science & Engg. -18
2. School of Computer Science & Engg- 5
3. School of Mechanical Engg – 5
4. School of Civil Engg. -2

Name of the Nominated Faculty Member	Qualifications	Areas /Subject Handled	Teaching Experience

**NOMINATION FORM**

Please email to [tapas.kumar@galgotiasuniversity.edu.in/](mailto:tapas.kumar@galgotiasuniversity.edu.in) kumartapas534@gmail.com by today (18/02/2019) before 5:00 P.M. As per their guidelines the same list is to be sent to the said organization so that they will share the contents and certification and relevant process individually in their mail id.

[No Registration Fees # Lunch, Tea/Coffee will be provided # Certificate of Participation will be issued].

For further Enquiry please feel free to Contact: **Prof Tapas Kumar, School of Computing Science & Engineering, Mobile No: 9818339510.**

Subject: SCALE FTP: IUCEE Student leadership program, still inviting applications

To: "Vedula, Krishna" <Krishna\_Vedula@uml.edu>

Dear Leaders of IUCEE Consortium Institutions,

Greetings! As you all may be aware of the SCALE (Student Consortium for Advancement in Learning Engineering) Facilitator Training Program to be held in the upcoming month, they are inviting all potential student candidates to be trained as facilitators for their forthcoming workshops PAN India for this year.

I request you on behalf of SCALE to please forward the details to all interested students from First/ Second/ Third year of the Engineering Curriculum. The applications begin on 10/5/18 and would be followed by a review of the applications by the SCALE team, all eligible students are further called for an Interview later.

The team does not set a limit to receive the applications from any Institution or an institution can send as many applications they want. The last date to apply and send your application is midnight of 13/05/2018.

For applications download and all other relevant documents you may please check the below link.

Link: [bit.ly/scale\\_ftp18](http://bit.ly/scale_ftp18)

For any other details please write to the SCALE India Team at [facilitator.iuceesc@gmail.com](mailto:facilitator.iuceesc@gmail.com)

Please ignore this mail if you have already responded

In Anticipation,

SCALE India Team

[www.scaleitup.net](http://www.scaleitup.net)

### Adobe Sales Order

Customer: SMT SHAKUNTLA EDUCATIONAL AND WELFARE SOCIETY  
 Agreement Number: DR2170814  
 Currency: USD

**Adobe Systems Software Ireland Limited**  
 Products and Services Pricing Detail:

#### Adobe On-demand Services

Except as otherwise specified in this Sales Order, these On-demand Services automatically renew for successive periods of 12 months, unless either Party provides written notice to the other Party of its intent not to renew at least 30 days before expiration of any then-current License Term. Support Services are described at: <https://helpx.adobe.com/support/programs/support-policies-terms-conditions.html>

Line Number	SKU	Product Description	Billing Cycle	Quantity	Unit Of Measure	License Term Start Date	License Term End Date	Unit Price	Total Fees
01	38051536	ANALYTICS FOUNDATION:OD	Advance   Annually - In	1.00	Million SERVER CALLS Per Month	1 June 2018	31 May 2021	1,428.00	51,408.00
Adobe On-demand Services:									51,408.00

01 ANALYTICS FOUNDATION:OD:  
 Fees associated with Adobe Analytics Foundation Primary Server Calls in excess of the Annual Primary Server Call commitment shall be billed @ 1428.00 USD CPMM. These fees are billed monthly in arrears as incurred. For a period up to 30 days prior to the Start Date (the "Implementation Period"), but in no event earlier than the Effective Date, Customer is granted a limited license to access the Products and Services for the sole purpose of implementation and testing at no additional cost to Customer, subject to all other terms and conditions of the Agreement. Further, Adobe may provide consulting services, as further described in this Sales Order, for Adobe Analytics during the Implementation Period. In the event that Customer does not have a Secondary Server Call Commitment, any Secondary Server Calls generated by Customer shall be billed at 100% of the Primary Server Call Overusage rate set forth above. Such fees are billed monthly in arrears as incurred.

#### Adobe On-premise Software

Except for perpetual licenses, the License Term of the On-premise Software licenses and any applicable support commences on the later of delivery of the On-premise Software or the identified start date. The end date of the License Term of the On-premise Software and any applicable support is the later of the amount of months comprising the identified License Term or the identified end date. The dates below only represent best estimates of the start and end dates of the License Term. Support services for the On-premise Software are described at <https://helpx.adobe.com/support/programs/support-policies-terms-conditions.html>.

Line Number	SKU	Product Description	Billing Cycle	Quantity	Unit Of Measure	License Term Start Date	License Term End Date	Unit Price	Total Fees
02	58051628	AEM SITES.OPT	Advance   Annually - In	1.00	Each BASE Per Year	1 June 2018	31 May 2021	16,591.00	49,773.00
03	58051590	AEM:OPT USFRS	Advance   Annually - In	60.00	Each USER Per Year	1 June 2018	31 May 2021	16.00	8,280.00

**ALL ACCESS TRAINING PASS-INDIVIDUAL:**

The Adobe Digital Learning Services All Access Learning Pass entitles Customer to designate one named individual ("Named User") as authorized to enroll and attend an unlimited number of public virtual or regional classroom training courses during the period commencing on the Start Date through the End Date (the "Subscription Period"). Registration for all courses is made at <http://training.adobe.com/training/courses.html>. Customer must contact Adobe Digital Learning Services at [adis@adobe.com](mailto:adis@adobe.com) to designate the Named User. If any Named User's employment terminates, Customer may designate a new Named User for the remaining balance of the Subscription Period via written notice to [adis@adobe.com](mailto:adis@adobe.com). This All Access Learning Pass is non-refundable. Adobe may terminate this All Access Learning Pass if Named User fails to attend more than 2 training classes for which Named User registered but failed to cancel at least 7 business days prior to class start. This All Access Learning Pass is not valid for use at training events held at Adobe Summits or Symposiums.

**ADOBE ANALYTICS FOR ACADEMIC INSTITUTION:**

1. Products and Services. The Adobe Analytics Academic Initiative package purchased by the Institution (as defined below) includes the following:

- 1.1 Adobe Professional Services, Adobe Training:
  - (a) 1 seat in a publicly scheduled Adobe Analytics: Reports & Analytics User three-day course.
  - (b) Any unused portion of this Adobe Professional Services engagement will expire 12 months after the Start Date and may not be carried over or used for any purpose.

- 1.2 On-demand Services:
  - (a) Demonstration Services, as further defined and licensed below, which includes:
    - (i) Functionality known as Adobe Analytics (On-demand Services) as described in section 1 of the Documentation for Adobe Analytics. However, Customer Data generated through Reports may be reused to create content for teaching purposes at Institution. Such content may not be distributed, resold, or re-used for any other purposes. Additionally, Institution will reference the Adobe Products and Services used to create such teaching materials and also include any necessary copyright notification.
    - (b) Access to the Demonstration Services will expire on the End Date, but in no event will access continue beyond 12 months from the Start Date.
  - (b) Definitions. Any appearance of the word "Customer" in the Agreement is hereby replaced with "Institution" as defined below. Any appearance of the word "Customer Data" in the Agreement is replaced with "Demonstration Data" as defined below. Any appearance of the word "Customer Site" in the Agreement is replaced with "Demonstration Site" as defined below.
  - 2.1 "Demonstration Data" means any and all data and information collected by Adobe from the Demonstration Site in the course of providing the Demonstration Services, including any and all data about traffic to the Demonstration Site contained in the Report(s). All Demonstration Data is intended to represent the behavior of actual visitors to a live website.

3. License  
 3.1 License Grant from Adobe. Subject to the terms of this Agreement and payment of any applicable Fees, Adobe grants to Institution, during the License Term the nontransferable, nonexclusive, worldwide, limited right to permit Users to (i) view and access the Demonstration Services; (ii) use any materials provided or disclosed to Institution by Adobe in the course of performing the Demonstration Services or other services provided by Adobe (the "Adobe Materials"), and (iii) subject to the ownership by Adobe of the underlying Adobe Technology, access the Reports. The Demonstration Services grant in this section is provided solely in connection with the Demonstration Services as defined and limited above. The Demonstration Services may only be used for Institution's own internal non-production purposes.  
 3.2 License Restrictions. Institution agrees not to (i) sell, rent, lease, host, sublicense, assign, transfer, or outsource access to the Demonstration Services, Adobe Materials, or Reports; (ii) make the Demonstration Services, Reports, or the Adobe Materials available to any third party other than a User; (iii) remove, obscure or alter any proprietary notices associated with the Demonstration Services, Reports, or Adobe Materials; (iv) use the Demonstration Services, Reports, or Adobe Materials, or allow them to be used, in any manner for any purpose other than as expressly permitted herein; (v) disassemble, decompile, or reverse engineer the Reports or any other technology supporting the Demonstration Services; (vi) exceed the maximum number of User licenses, if applicable to a particular Demonstration Service, that Institution has purchased for that particular Demonstration Service, as evidenced in the Sales Order(s); or (vii) copy, use, reproduce, distribute, republish, download, display, post or transmit in any form or by any means the Demonstration Services, Adobe Materials or Reports, except as expressly stated herein. Adobe reserves all rights not expressly granted to Institution herein and Institution shall not limit Adobe in any way from developing, using, licensing, distributing, modifying, or otherwise freely exploiting the Demonstration Services, or Adobe Materials, or any modifications, enhancements, improvements or derivative works thereof, or permitting third parties from so doing. Any and all acts or omissions of Users shall be imputed to Institution, and Institution shall remain liable for the same without exception, including but not limited to any User that accesses any On-demand Services not specifically identified as Demonstration Services.

4. Users  
 4.1 Login Terms. Institution acknowledges and agrees that Institution and each of its Users that access the Demonstration Services will be bound by the terms and conditions of use required of each such User upon log-in to the reporting interface for the Demonstration Services.  
 4.2 User accounts. (a) Adobe will provide Institution with the creation and provisioning of User accounts and logins during the License Term, as well as the deactivation of User accounts and logins upon expiration of the License Term. (b) Institution may create an amount of User accounts and logins as allowed by Adobe during the License Term. Individual User accounts may be active for up to 120 days to allow for term/subterm structure, or active 12 months during the License Term for faculty. If the License Term End Date falls during Institution's finals, tests, or student evaluation, Institution may request in writing to Adobe at least 30 days prior to the License Term End Date, for an extension of the License Term up to 14 days past the License Term End Date.

5. Confidential Information. In addition to the Confidentiality terms in the General Terms, the Demonstration Services and Reports are considered Adobe's "Confidential Information" as defined and explained in the General Terms. Institution may disclose Adobe's Confidential Information to a User who is not a direct competitor of Adobe and who has agreed to terms upon log-in to the reporting interface for the Demonstration Services as described in Section 4.1.

6. Publicity. Adobe may identify Institution on Adobe's institution lists and in its marketing and advertising materials, and announce that Institution is a user of the Demonstration Services, and reproduce Institution's company name, logo, trademark, trade name, service mark, or other commercial designations in connection therewith. Adobe may develop and publish a case study based upon Institution's use of the Demonstration Services. Adobe may disclose Institution's name and the value of this Agreement in connection with any filings or disclosures required by Adobe under applicable state or federal securities laws.

7. Effect of Termination. Upon any termination or expiration of this Agreement, (i) the rights and licenses granted to Institution under this Agreement will automatically terminate; (ii) all amounts due to Adobe under this Agreement will become immediately payable; and (iii) Institution will, at its expense, return or destroy all User logins and passwords provided by Adobe.

8. Limitation of Liability. In the Limitation of Liability section of the Agreement, the words "each Party" will be replaced with "Adobe." In addition to the Limitation of Liability terms in the General Terms, ADOBE WILL NOT BE RESPONSIBLE FOR ANY MALFUNCTIONS, ERRORS, INACCURACIES, OR IMPROPER RESULTS ATTRIBUTABLE TO INSTITUTION'S INCORRECT, UNAUTHORIZED, OR UNSUPPORTED USE OF ANY DEMONSTRATION SERVICES. NOR WILL ADOBE BE RESPONSIBLE FOR ANY DAMAGE, LOSS, USE OR MISUSE OF INSTITUTION'S LOGIN IDS OR UNAUTHORIZED ACCESS TO PASSWORDS.

9. Warranty. The Limited Warranty and Remedy for On-demand Services and Managed Services section of the Agreement is hereby deleted and replaced with the following: Adobe warrants that the Demonstration Services will be performed in a professional and workmanlike manner. Except the Specific Provisions for Professional Services section, any and all other warranties provided by Adobe will not be applicable to this line item. The implied warranty provisions in the Agreement remain applicable.

10. Support and Upgrades. Support and upgrades are not available for the Demonstration Services licensed for this line item.

The Demonstration Services may only be used for Institution's own internal non-production purposes.

3.2 License Restrictions. Institution agrees not to (i) sell, rent, lease, host, sublicense, assign, transfer, or outsource access to the Demonstration Services, Adobe Materials, or Reports; (ii) make the Demonstration Services, Reports, or the Adobe Materials available to any third party other than a User; (iii) remove, obscure or alter any proprietary notices associated with the Demonstration Services, Reports, or Adobe Materials; (iv) copy, reproduce, distribute, republish, download, display, post or transmit the Demonstration Services, Reports, or Adobe Materials, or allow them to be used, in any manner of for any purpose other than as expressly permitted herein; (v) disassemble, decompile, or reverse engineer the Reports or any other technology supporting the Demonstration Services; (vi) exceed the maximum number of User licenses, if applicable to a particular Demonstration Service, that Institution has purchased for that particular Demonstration Service, as evidenced in the Sales Order(s); or (vii) copy, use, reproduce, distribute, republish, download, display, post or transmit in any form or by any means the Demonstration Services, Adobe Materials or Reports, except as expressly stated herein. Adobe reserves all rights not expressly granted to Institution herein and Institution shall not limit Adobe in any way from developing, using, licensing, distributing, modifying, or otherwise freely exploiting the Demonstration Services, or Adobe Materials, or any modifications, enhancements, improvements or derivative works thereof, or permitting third parties from so doing. Any and all acts or omissions of Users shall be imputed to Institution, and Institution shall remain liable for the same without exception, including but not limited to any User that accesses any On-demand Services not specifically identified as Demonstration Services.

4. Users

4.1 Login Terms. Institution acknowledges and agrees that Institution and each of its Users that access the Demonstration Services will be bound by the terms and conditions of use required of each such User upon log-in to the reporting interface for the Demonstration Services.

4.2 User accounts. (a) Adobe will provide Institution with the creation and provisioning of User accounts and logins during the License Term, as well as the deactivation of User accounts and logins upon expiration of the License Term. (b) Institution may create an amount of User accounts and logins as allowed by Adobe during the License Term. Individual User accounts may be active for up to 120 days to allow for term/subterm structure, or active 12 months during the License Term for faculty. If the License Term End Date falls during Institution's finals, tests, or student evaluation, Institution may request in writing to Adobe at least 30 days prior to the License Term End Date, for an extension of the License Term up to 14 days past the License Term End Date.

5. Confidential Information. In addition to the Confidentiality terms in the General Terms, the Demonstration Services and Reports are considered Adobe's "Confidential Information" as defined and explained in the General Terms. Institution may disclose Adobe's Confidential Information to a User who is not a direct competitor of Adobe and who has agreed to terms upon log-in to the reporting interface for the Demonstration Services as described in Section 4.1.

6. Publicity. Adobe may identify Institution on Adobe's institution lists and in its marketing and advertising materials, and announce that Institution is a user of the Demonstration Services, and reproduce Institution's company name, logo, trademark, trade name, service mark, or other commercial designations in connection therewith. Adobe may develop and publish a case study based upon Institution's use of the Demonstration Services. Adobe may disclose Institution's name and the value of this Agreement in connection with any filings or disclosures required by Adobe under applicable state or federal securities laws.

7. Effect of Termination. Upon any termination or expiration of this Agreement, (i) the rights and licenses granted to Institution under this Agreement will automatically terminate; (ii) all amounts due to Adobe under this Agreement will become immediately payable; and (iii) Institution will, at its expense, return or destroy all User logins and passwords provided by Adobe.

8. Limitation of Liability. In the Limitation of Liability section of the Agreement, the words "each Party" will be replaced with "Adobe." In addition to the Limitation of Liability terms in the General Terms, ADOBE WILL NOT BE RESPONSIBLE FOR ANY MALFUNCTIONS, ERRORS, INACCURACIES, OR IMPROPER RESULTS ATTRIBUTABLE TO INSTITUTION'S INCORRECT, UNAUTHORIZED, OR UNSUPPORTED USE OF ANY DEMONSTRATION SERVICES. NOR WILL ADOBE BE RESPONSIBLE FOR ANY DAMAGE, LOSS, USE OR MISUSE OF INSTITUTION'S LOGIN IDS OR UNAUTHORIZED ACCESS TO

## Sales Order Terms and Conditions

1. All Products and Services are provided under the version of the Adobe Enterprise Licensing Terms as of the date Customer executes this Sales Order and available here: <http://www.adobe.com/legal/terms/enterprise-licensing/apac.html> including the General Terms and the applicable Product Specific Licensing Terms (the "Agreement").
2. Customer agrees to purchase the Products and Services set out in the Products and Services Pricing Detail section. All pricing and discounts described in this Sales Order are contingent upon Customer's execution and return of this Sales Order no later than 30 April, 2018 (unless countersigned by Adobe).
3. Additional Definitions.
  - (A) With respect to the Customer, "Affiliate" means a reference to:
    - (1) Galgotias University having its headquarters at Greater Noida, Gautam Buddh Nagar; or
    - (2) Galgotia Group of Institutions having its headquarters at Greater Noida, Gautam Buddh Nagar;
 and, the term "Affiliates" will be construed accordingly.
  - (B) "Course" means the Customer's Affiliates' elective or value-added course on 'Digital Technology' and Analytics which will be held at the Customer's Affiliates' campuses in Galgotias University and Galgotias Group of Institutions.
  - (C) "Course Materials" means Course materials and modules.
  - (D) "Faculty" means the then-current employee or independent contractor of the Customer whose primary job duties consists of providing educational instructions on the Course to the Students. Faculty does not include: (i) companies and their employees who are retained on a contractual basis for services by the Customer either on-campus or off-campus; and (ii) retired faculty members.
  - (E) "Student" means an individual enrolled in the Course conducted by Customer, but excluding the following persons who are not eligible to use the Products and Services licensed under this Agreement: correspondence and long-distance learning students, alumni, conference attendees, visitors, and students enrolled in noncredit courses.
4. Customer agrees to use the licenses granted for the Products and Services under the Agreement, solely for the purposes of allowing Customer to train its Students on the Products and Services, and not for any other purpose whatsoever. Customer must ensure that the Students comply with the terms of the Agreement.
5. Customer is responsible for developing the Course Materials. Adobe will, in good faith, provide industry inputs to Customer relating to the Products and Services for developing the Course Materials. It is clarified that Adobe retains all rights, title and interest (including intellectual property rights) in and to such inputs that it provides to the Customer. Customer agrees and acknowledges that Adobe and its licensors own the Adobe Technology. Nothing in this section 5 will prejudice or waive any of Adobe's rights, title or interests in the Adobe Technology.
6. For the avoidance of doubt, the license grant for the Products and Services by Adobe to Customer under the Agreement, are only development licenses for instructional purposes, and Customer is not authorized to use the Products and Services for any other purpose including: for publish any form of production web sites or any web sites that address an audience outside of those Students and Faculty involved in the then-current convening of the Course on Products and Services, for generating any Reports, etc.
7. Adobe has granted the licenses to the Products and Services solely to the Customer in accordance with the terms of the Agreement, and not to the Students or to the Faculty. The Students and the Faculty do not have any license, right or interest in the Products and Services.

Concept Note: Adobe Digital Technology Academy

**Overview**

Access to quality education for knowledge and skill development are the key ingredients to bridge industry academia gap. India has the world's third largest education system and with more than 50% of India's population below the age of 25 years, it is imperative to focus on the development of youth so that India becomes skill capital of the world.

With industry automation 4.0, business verticals of all industry leaders are driving large scale technical innovations globally and adopting Digital, thereby creating a need for students to get trained on Digital Skills to enhance employability quotient. This potential for transformation that today's digital era offers, is a compelling reason for Indian Universities and education policy planners to discuss operating models and curriculum reforms for an outcome based learning.

Digital can no longer be viewed as just an enabler but a prime requirement for the transformation process for employability. Digital era has signaled significant change and transformation in hiring needs of the employers creating a gap between industry requirements and academics. Industry today demands of new age skills like Artificial Intelligence, Creativity, Design Thinking, Machine Learning and Big Data

Adobe is a leader in digital across all major industry verticals like IT-ITES, BFSI, Telecom, Retail, e-commerce, and Automotive. Our objective is to offer skill based training to students on 2 leading technologies of Adobe Experience Cloud - Adobe Experience Manager and Adobe Analytics, based on Artificial Intelligence platform 'Adobe Sensei'. This will not only help students understand the technological advancements but also prepare them for job roles of future.

**Program Highlights and Benefits**

Adobe India's flagship initiative '*Adobe Digital Technology Academy*' is a program, in partnership with educational institutions for skill development of students. The skill building courses offered as a part of the program are a combination of theory and practical hands on training sessions on Adobe Experience Cloud comprising of:

1. Digital Technology using Adobe Experience Manager
2. Data Analytics (Reports and Analytics) using Adobe Analytics

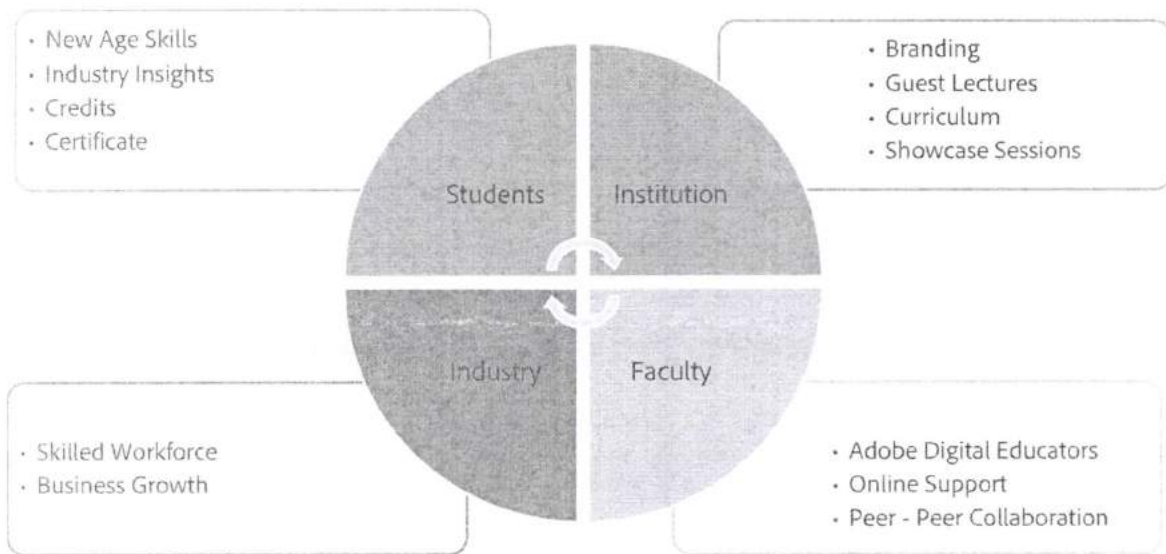

Dean School of Computing Science  
& Engineering  
GALGOTIAS UNIVERSITY  
\*UTTAR PRADESH\*

The highlights of the program are:

- Industry endorsed content
- Integration of curriculum as a part of time-table
- Practical hands on training
- Faculty development training
- Guest lectures
- Access to Adobe Education Exchange

The overall benefits of the program are:

### Program Duration and Interventions

The program is valid for 3 years and the following interventions will be planned accordingly:

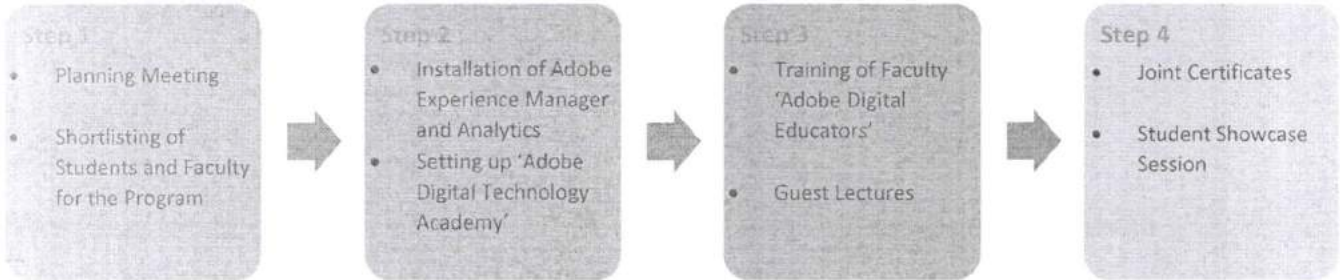

- Faculty Development Training: 3 days on site training
- Online doubt clearing session
- Guest Lectures: 1 guest lecture every semester
- Student Showcase Sessions: once every year

Dean School of Computing Science  
& Engineering  
**GALGOTIAS UNIVERSITY**  
\*UTTAR PRADESH\*

**Implementation Process**

This program would be implemented in 4 steps as mentioned below:

A joint project management team will ensure monitoring of the program.

**Roles and Responsibilities**

Adobe	Institution
<ul style="list-style-type: none"> <li>• Annual subscription licenses</li> <li>• Faculty Development Training</li> <li>• Student Workbook (Digital Copy)</li> <li>• ADTA Branding</li> <li>• Guest Lectures</li> </ul>	<ul style="list-style-type: none"> <li>• Approvals and Sign off</li> <li>• Profiles of IT Faculty</li> <li>• Lab with computers and basic infrastructure for establishing Adobe Digital Technology Academy</li> <li>• Adjustment of time table</li> <li>• Program implementation as per mutually finalized process guidelines</li> </ul>
<p>Joint certificates to students and faculty on successful completion of the course.</p>

**Annexure 1: Course Outline**
**1. Digital Technology Course**

<b>Course Overview</b>	This course is relevant for students to gain understanding about Digital Technology, best practices and relevant success stories of the industry. They will also gain hands on proficiency on Adobe Experience Manager - a platform for delivering engaging, multichannel experience. The students will be able to understand the evolution and explosion of digital touchpoints and social media across all channels making the content relevant, engaging and unified experience.
<b>Duration</b>	60 – 80 hours (theory and practical)
<b>Broad Topics Covered</b>	<ul style="list-style-type: none"> <li>• Getting Started - Intro to Digital</li> <li>• Overview of Artificial Intelligence, Machine Learning and IOT</li> <li>• Web and OSGi Framework</li> <li>• Content Repository and Scripting Language</li> <li>• Authoring Framework – Templates</li> <li>• AEM Authoring Framework – Components &amp; Design</li> <li>• AEM Authoring Framework – Dialog Boxes</li> <li>• Authoring Responsive and Mobile Pages</li> <li>• Finding &amp; Viewing Assets</li> <li>• Handling Page Properties</li> <li>• Managing Digital Campaigns and Content Targeting</li> </ul>
<b>Expected Outcome</b>	<ul style="list-style-type: none"> <li>• Understand the basics of Digital</li> <li>• Develop applications on digital platform (Adobe Experience Manager)</li> <li>• Execute basic practices as a developer</li> </ul>

Dean School of Computing Science  
& Engineering

\*UTTAR PRADESH\*

**2. Data Analysis (Reports and Analytics)**

<b>Course Overview</b>	This course is designed for students to help find answers related to business questions. The students will learn how the reporting interface and navigation works, how to run reports to get the answers and how to configure reports for effective decision-making. This will also enable students to distribute reports, create useful dashboards, and segment data to get the right information to the right people at the right time.
<b>Duration</b>	40 – 60 hours (theory and practical)
<b>Broad Topics Covered</b>	<ul style="list-style-type: none"> <li>• Learn the Fundamentals of Reports &amp; Analytics</li> <li>• Understand Key Business Requirements</li> <li>• Understand Key Performance Indicators</li> <li>• Analyze Traffic, Conversion and Path reports</li> <li>• Activity Map</li> <li>• Breaking down and Segmenting Reports</li> <li>• Calculated Metrics</li> <li>• Create and Manage Dashboards</li> <li>• Create Targets and Calendar Events</li> <li>• Save and Share Reports</li> </ul>
<b>Expected Outcome</b>	<ul style="list-style-type: none"> <li>• Learn and apply basics of Digital</li> <li>• Understanding the Web site conversion process</li> <li>• Customizing reports to answer business questions</li> <li>• Automating report delivery throughout your organization</li> <li>• Understanding how reports fit into the conversion process</li> <li>• Segmenting data to discover new insights</li> </ul>

2018

**Roll out Method**

**Course Name:** Adobe Digital Training Academy course

**Course Code:** EMPS3001

**Attendees:** Mandatory for all B.Tech 7<sup>th</sup> Semester students.

**Mode of Delivery:** Hands on Training and content material uploaded on moodle.

**Mode of Assessment:** Lab Activities on Adobe Experience Manager (AEM) software. Each Activity is connected to next activity.

**Number of Hours/Day:** 2 hrs

**Number of Hours/Week:** 10 hrs

**Incorporated in Time Table:** Yes

**Scheduled Duration:** 2<sup>nd</sup> July, 2018 to 8<sup>th</sup> Sept, 2018.

**2. Data Analysis (Reports and Analytics)**

<b>Course Overview</b>	This course is designed for students to help find answers related to business questions. The students will learn how the reporting interface and navigation works, how to run reports to get the answers and how to configure reports for effective decision-making. This will also enable students to distribute reports, create useful dashboards, and segment data to get the right information to the right people at the right time.
<b>Duration</b>	40 – 60 hours (theory and practical)
<b>Broad Topics Covered</b>	<ul style="list-style-type: none"> <li>• Learn the Fundamentals of Reports &amp; Analytics</li> <li>• Understand Key Business Requirements</li> <li>• Understand Key Performance Indicators</li> <li>• Analyze Traffic, Conversion and Path reports</li> <li>• Activity Map</li> <li>• Breaking down and Segmenting Reports</li> <li>• Calculated Metrics</li> <li>• Create and Manage Dashboards</li> <li>• Create Targets and Calendar Events</li> <li>• Save and Share Reports</li> </ul>
<b>Expected Outcome</b>	<ul style="list-style-type: none"> <li>• Learn and apply basics of Digital</li> <li>• Understanding the Web site conversion process</li> <li>• Customizing reports to answer business questions</li> <li>• Automating report delivery throughout your organization</li> <li>• Understanding how reports fit into the conversion process</li> <li>• Segmenting data to discover new insights</li> </ul>

## Adobe Spark Process Document for Further Action

Mr. Dinesh Kumar Baghel  
Asst. Prof.  
SCSE, Galgotias University

As the next step, for enhanced learning experience we request to all faculties and students of all Schools to **do some projects(of your choice) on digital resume building, social media posts, digital assignments or digital lesson plans** so that you can exhibit your creations & learnings on Adobe Spark.

Please find below the steps to follow for doing project using Adobe Spark:

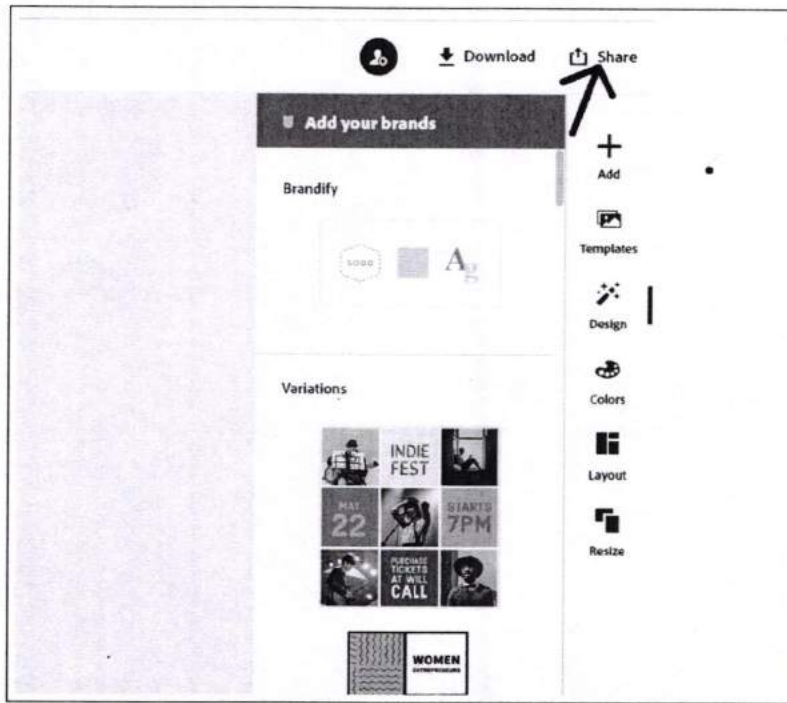

1. First make sure that Adobe Spark License has been deployed for you and activated. If not, then please contact your School Co-ordinator.
2. Login to your Adobe Spark account by clicking on [spark.adobe.com](https://spark.adobe.com)
3. Create any project of your choice. You can refer to the webinar recording to learn how to create projects using Adobe Spark.
4. Share the link of your project on Google Form

A handwritten signature in black ink, appearing to be 'D.K. Baghel'.

	2018-20	16	<b>Dr E Rajesh (Optional)</b>
<b>Total</b>		<b>3376</b>	

**The steps of this event are as follows:**

- Deploying Adobe Spark Premium License for students. Immediately after deploying the license an email from Adobe is automatically sent to the students email id for activation purposes.
- Activation of Adobe Spark Premium License [**Webinar Prerequisite**](**To be done by Students**)
- Conducting a webinar on Adobe Spark which includes a hand-on session for which activation of license is necessary

**Webinar Pre-requisites to be done by Students**

Students please make sure to complete the following steps to attend the webinar session:

- Click on the mail and activate your Adobe Spark Premium License. You will receive the mail from Adobe Creative Cloud to activate Adobe Spark Premium license. (message@adobe.com)

NOTE: You are advised to check your "junk" or "spam" folder as well in case you have not received in your Inbox.

- The mail will show the following text "You now have access to Spark with Premium Features for K-12"
- Click on the Blue 'Get Started' Button
- just sign in by clicking on "Get an Adobe ID" blue button.
- Put your first & last name & user ID (your email ID)

## The Dynamics of Digital Skilling

The advent of the fourth Industrial revolution, is witnessing unprecedented technological advances. The 17 million entrants into the workforce, of which 54% are below 25 years, pose a unique challenge to Young India. For India to reap the benefits of its demographic dividend and to realise the economic opportunities of Exponential Technologies, it is imperative to create a nimble demand- led education system integrated with digital skill development.

The interplay of three primary forces - Globalization, Demographic Changes and Adoption of Industry 4.0 (Exponential Technologies) is expected to have a disruptive impact on India's job landscape; and the kind of jobs that would get created, the workforce mix and consequently the significant new skill sets required to deliver them.

Source: Future of Jobs in India: A 2022 perspective; specific to IT-BPM, Automotive, Retail, Textile and Apparel, BFSI sectors

Hence, it is also critical for the emerging workforce across – 240 million school students and 34 million higher education students across Universities, to develop digital literacy to enhance the 4 crucial skills of **Creativity, Communication, Collaboration and Critical thinking**.\*

\* The study on 'Skill Development for Industry 4.0' by FICCI and Rolland Berger along with member BRICS countries (2016) highlights the increase in demand for creative, design oriented high order skills.

\*Creativity ranked as one of the top 3 skills by World Economic Forum.

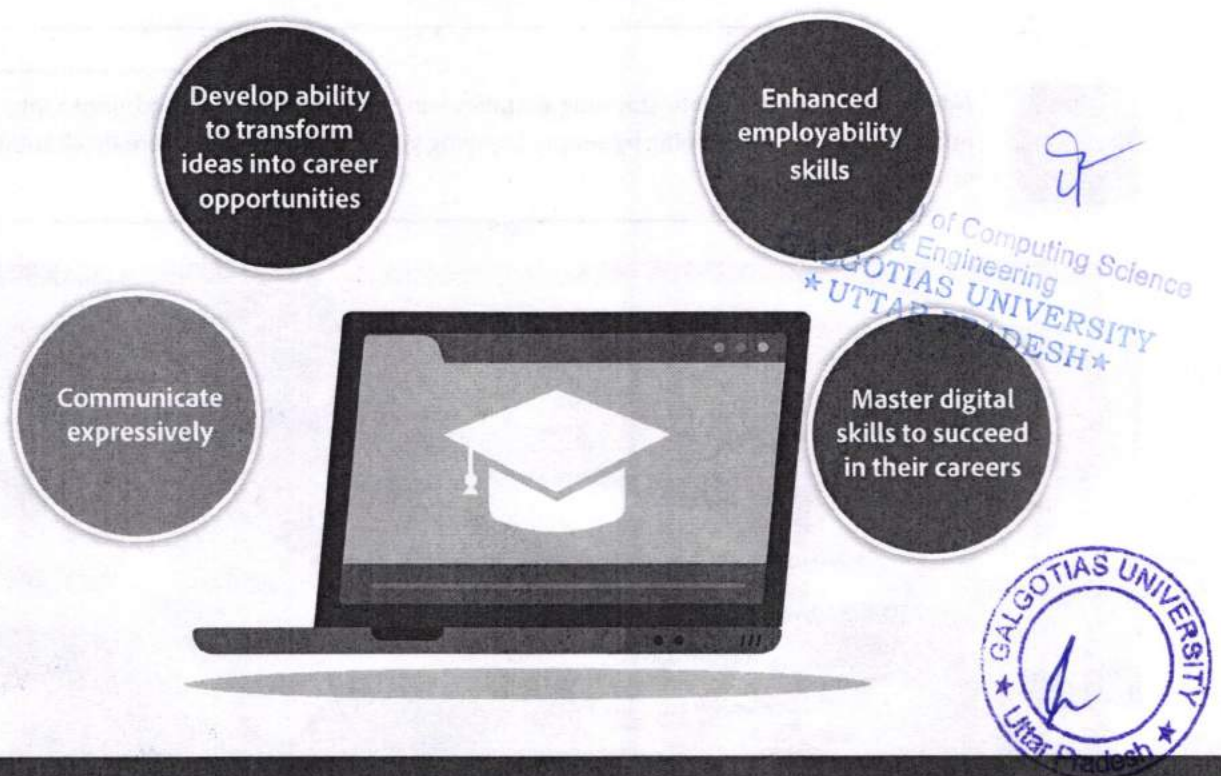

By integrating Adobe Spark in the school curriculum Adobe Digital Disha program aims to

- Orient teachers and students to emerging technologies in the Digital Era
- Empower educators to teach new age skills, create and share impactful lesson plans
- Introduce vistas for experiential and accelerated learning
- Enhance learning outcome

### Higher Education/Vocational Training Students will

## Fostering Digital Creativity

### Adobe Spark for Higher Education

- Video Lectures
- Digital Lesson Plans
- Research Projects
- Department Circulars
- Digital Resume
- Creative Portfolios and Web page
- Social Media Posts

### Adobe Spark for K-12

- Developing STEM Curriculum
- Creative Storytelling
- Project Based Learning
- Class Reports & Newsletters
- ICT / Digital Clubs

## Benefits of Adobe Spark

- **Integrated Program:** Adobe Spark can be used on desktop web browsers and mobile devices, it syncs your Spark projects automatically between your computer and mobile devices.
- **Easy Login:** Ability to setup single sign-on so students can easily login with their existing school ID.
- **Enhanced control:** Schools own the accounts and exercise admin rights over them in order to keep students safe. In addition, image results are more age appropriate for K-12 students.
- **Premium Features:** Adobe Spark's Premium Features which are used to customize Spark creations, are included for Free.

## Eligibility Criteria

All Schools, Higher Education Institutions, Vocational Training Institutes, which are internet enabled.

### Roles and Responsibilities

Adobe	Academic Institutions
Capacity Building Workshops	Availability of computers with internet facility
Free access to Adobe Spark with Premium features	
Content and sample lesson plans	Details of faculty to be trained as Adobe Digital Educators
Adobe Education Exchange	
Awards and Recognition * Conditions apply

Cc: Vice Chancellor <vc@galgotiasuniversity.edu.in>, Garima Babbar <gbabbar@adobe.com>

Dear Dinesh Sir,

As discussed, please have below the concept note on our "Digital Disha Program".

**Adobe Digital Disha** - Adobe Digital Disha program powered by Adobe Spark is focused to enable educators to foster Digital and Creativity Skills in students across disciplines. The main objective of the program is to enhance and empower the skills of teachers and students in with the new age skills in the Digital era. Adobe Digital Disha program offers workshops with practical hands on training using Adobe Spark. Adobe Spark is an integrated suite of storytelling digital applications for the mobile and web developed by Adobe Systems. It comprises three separate applications: Spark Page, Spark Post, and Spark Video. (<https://spark.adobe.com/home>). Brochure attached.

Adobe Digital Disha is a free of cost training program for faculty and students of your university. This training program aims at helping students enhance their creativity and bring a change in the learning process. The following will be the components of Adobe Digital Disha:

### Program Benefits

- Free Access to Adobe Spark Premium
- Integrated Program: Adobe Spark can be used on desktop web browsers and mobile devices; it syncs your Spark projects automatically between your computer and mobile devices.
- Enhance 21st century skills: Critical thinking, Communication, Collaboration and Creativity
- Enhanced control: Institutions own the accounts and exercise admin rights over them in order to keep students safe. Premium Features: Adobe Spark's Premium Features which are used to customize Spark creations, are included for Free.
- Access to Adobe Education Exchange - <https://edex.adobe.com/>
- Experience the joy of learning and storytelling using Adobe Spark and enhance innovation and Creativity among students through interactive lesson plans and project-based learning.

Dear Preeti Ma'am,

Greetings from Adobe !!!

Thank you for giving us an opportunity to build creativity skills of the faculties & students of your prestigious University. We value this partnership and continue introducing new initiatives in your University. Approx 3310 (faculties & students) participated in the webinar. I am attaching the participants list & the recording link for your reference. Recording [link recording](#)

Now in next step. for enhanced learning experience we request you to assign some projects to these users on digital resume building, social media posts, digital assignments or digital lesson plans for students so that they can exhibit their creations & learnings on Adobe Spark & submit to you.

This will also help us getting more active users, as of now below is the deployment V/s active usage of your University. Thank you Dinesh Sir for your leadership & support !!!

## Industrial Visit Report

**Department of Chemistry, School of Basic & Applied Sciences**

**Galgotias University, Greater Noida**

**Industry Visited:** Innovision CosmoChem Solutions.

**Date:** 24-08-18

**Transportation:** University Bus (One)

**Students:** Total 10 students of M.Sc (Chemistry)

**Teacher Coordinators:** Dr Shafat Ahmad Khan

### **Purpose of Industrial Visit**

- 1) To interact the students with actual industry personals.
- 2) To make them aware of the industrial procedures required to enter in any company.
- 3) To experience the working environment in industry and visualize the all the important departments in the Industry.
- 4) Interaction of students with the peoples of all important departments.
- 5) To prepare the students for the selection of career path in different departments of industry.

### **Ground report**

According to the route and time plan one bus was departed and reached Innovision CosmoChem Solutions, Delhi at 12:00 pm, The Security officer welcomed the bus and guided for the entry in seminar room. Lecture room was very sophisticated where the tea was served for the students. Mr Pradeep Kumar, delivered a PPT presentation with the introduction of company profile and principles. The important processes of the quality and analysis of ingredients used in different products were explained. They covered each and every small aspect of the quality assurance of the components used in nutraceuticals, pharmaceuticals, home care and personal care products.

  
**DEAN**  
School of Basic & Applied Sciences  
Galgotias University

## **Educational Visit to NCERT - CIET**

Visiting educational institutions of the national repute is the essential part of the B.Ed. curriculum. Visit to such organizations widen the vision of the students and inspire them for their future planning. For achieving this objective B.Ed. students of second semester and faculty members of Galgotias University, School of Education, Greater Noida visited National Council of Educational Research and Training (NCERT), New Delhi on February 5, 2019. NCERT is the apex government body working for the improvement of the school education in the country.

In the first part of the visit students visited Department of Central Institute of Educational Technology (CIET-NCERT). This department is working for enhancing use of ICT in education. This department arranged four sessions for the B.Ed. students. First session was taken by Prof. Amarendra Prasad Behera, Joint Director. In his address he requested the students to become creator and consumer of Digital knowledge and focused to reduce the transmission gap and cascading information from top to bottom.

Second session was taken by Dr. Abhay Kumar, Assistant Professor, CIET. He stressed on quality, quantity and equity as objective of knowledge that can be incorporated through Digital Era. Third session was preceded by Mr. Parmod Sharma who focused on incorporation of Art in Education and gave in hands practice to use 'Puppets' in classroom teaching. In the fourth session a visit was arranged to the studios of the CIET to develop an understanding preparation required for live videos, audios and their recordings.

In second part of the visit a session was taken by Prof. Jyotsana Tiwari, Head and Dr. Sharbari Banarjee of Department of Education in Arts and Aesthetics (DEAA). Both faculties talked upon the topic, 'Status of Art Education: Practice, Issues and Challenges'. They motivated budding teachers to create own resource centers and integrate arts to interpret and analyze their subjects. This exposure visit helped students to motivate themselves as a nation builder role they are going to play.

### Report

School of Medical & Allied Health Sciences (SMAS) Department of physiotherapy, Galgotias University organized a one-day educational visit on 17<sup>th</sup> October 2018, to Indian spinal Injury Centre, Vasant kunj, New Delhi.

We visited the rehabilitation department of the hospital, where we had an interactive session with social worker's, vocational therapist, occupational therapist, gym trainer, physiotherapist, prosthetist & orthotist.

We got a chance to see the hydrotherapy pool of ISIC, we got chance to visit department of physiotherapy where we saw various modalities such as prokin, gait trainer, tilt table, O frame, various type of wheelchair, etc.

We also visited their anatomy, physiology, cardiopulmonary, electrotherapy, and sports injury labs.

Design Aura Architects and Associates

**Subject: Regarding Collaboration of Research and innovation activity about Building Information Modelling**

I am reaching out to you for collaboration in research and innovation activity under **Building Information Modelling**. Building Information Modelling or BIM is the process of designing, constructing and operating a building with the use of electronic object-orientated information. Your company is working under this domain so I would like to work with your company in research activity regarding the same. I request you to collaborate with us in the activity and make our students part of the activity.

Kindly reply with the tentative date and student intake for the workshop

Thanking you.

Regards

Dean

**Subject: Acceptance of proposal Regarding Collaboration of Research and innovation activity about Building Information Modelling.**

Dear sir,

Thanks for your proposal for collaboration in Research and innovation activity.

Our team has reviewed your offer to collaborate with our organization to conduct research and innovation activity under Building Information Modelling.

We are pleased to communicate our availability and willingness to partner with your institution to execute this project. Proposed date of the activity is 06 September 2018 to 08. September 2018.

There are 05 numbers of students are needed to take part in the activity. So kindly send your students at given address and time

Thank you for choosing Design Aura Associates and Architects.

We look forward to working with you.

Regards

Ar. Mohammad Abbas

Design Aura Architects and Associates

## REPORT

### **Building Information Modelling**

**In collaboration with Design Aura Architects & Associates**

**Academic Session 2018-2019**

DESIGN AURA ARCHITECTS & ASSOCIATES is an emerging name in the field of architecture & Design. DAAA used Building information modelling in their projects very effectively.

Students from School of Architecture take part in Building Information Modelling under Research and Innovation activity on 06-08 September 2018 and learn important aspects of Building Information modelling.

**Building information modelling (BIM)** is a process supported by various tools, technologies and contracts involving the generation and management of digital representations of physical and functional characteristics of places. Building information models (BIMs) are computer files (often but not always in proprietary formats and containing proprietary data) which can be extracted, exchanged or networked to support decision-making regarding a built asset. BIM software is used by individuals, businesses and government agencies who plan, design, construct, operate and maintain buildings and diverse physical infrastructures, such as water, refuse, electricity, gas, communication utilities, roads, railways, bridges, ports and tunnels.

Building Information Management (BIM) models are transforming how buildings are designed and constructed, and can facilitate multi-disciplinary coordination, and integrate 3D design, analysis, cost estimating, and construction scheduling. By extending the model into the post-occupancy period, BIM models can be used to support Facilities Management and Building Operations, and offer a consolidated interface for information regarding all aspects of building operational performance. Four key challenges must be overcome to develop BIM models suitable for Sustainable Operations management: (1) identification of critical information required to inform Operational decisions, (3) the high level of effort to create new or modify existing BIM models for the building(s), (2) the management of information transfer between real-time operations and monitoring systems and the BIM model, and (4) the handling of uncertainty based on incomplete building documentation. This paper describes the process used to address and overcome each of these challenges. The BIM framework and its refinement are presented

along with evaluative data from a case study where a model was developed using this framework for a complex university building. The results of this study demonstrate how these BIM models can be developed for the most challenging existing building scenarios and effectively used to improve building management and performance.

Dear sir,

Thanks for your proposal for collaboration in Research and innovation activity regarding Parametric modelling.

We are pleased to learn that you school is working on such domain. I am sure students will get benefitted with this because of onsite actual work.

We are pleased to communicate our availability and willingness to partner with your institution. Please note **proposed date of the activity is 10 to 12 November 2018.**

We can accommodate only 6 of your students to take part in the activity. So kindly send your students for further detailed schedule

Thank you for choosing Anishail Designers & Associates

## **REPORT**

### **Parametric Modelling**

**In collaboration with Anishail Designers & Associates**

**Academic Session 2018-2019**

Students from School of Architecture take part in Parametric Modelling in buildings with the collaboration of Anishail Designers & Associates, Research and Innovation on 10-11-2018 to 12-11-2018.

Parametric modeling is a modeling process with the ability to change the shape of model geometry as soon as the dimension value is modified. Parametric modeling is implemented through the design computer programming code such as a script to define the dimension and the shape of the model. The model can be visualized in 3D draughting programs to resemble the attributes of the real behavior of the original project. It is quite common that a parametric model uses feature-based, modeling tools to manipulate the attributes of the model.

Parametric modeling was first invented by Rhino, which is a 3D draughting software that evolved from AutoCAD. The key advantage of parametric modeling is, when setting up a 3D geometric model, the shape of model geometry can be changed as soon as the parameters such as the dimensions or curvatures are modified; therefore there is no need to redraw the model whenever it needs a change. This greatly saves time for engineers, especially in the scheme design stage. Before the advent of parametric modeling, the scheme design was not an easy task for designers, as the model is prone to be changed frequently. Therefore, changing the shape of a construction model was very difficult. Particularly, parametric modeling allows the designer to modify the entire shapes of the model, not just individual members. For example, to modify a roof structure, conventionally, the designer had to change the length, the breadth, and the height. However, with parametric modeling, the designers need to only alter one parameter; the other two parameters get adjusted automatically.

on

### **Building Services Workshop**

**In collaboration with Devendra Kumar Associates**

**Academic Session 2018-2019**

Students from School of Architecture take part in Building Services Workshop in the collaboration of Devendra Kumar & Associates, on 04-03-2019 to 06-03-2019.

Devendra Kumar & Associates is an emerging name in the field of architecture & Design and their speciality belongs to Building Services.

What are we referring to when we speak about installations in architecture? The installations range from the essential supplies of water and electricity, to the set of mechanisms, sensors and technological elements that allow man to enjoy a welfare impossible to have merely with the physical elements (structure, enclosure...) of traditionally understood architecture. Without installations, most contemporary buildings do not satisfy the Vitruvian utilities of the 21st century. A hospital or an office building, without installations, does not stop being an optimized structure and a construction that protects it from the inclemency of the weather, but it no longer carries out the functions for which it was built. Although in some buildings the budget devoted to installations can exceed 50% of the whole, there is no clear definition that explains the exact concept of installations in construction. There are countless publications that explain in detail how to carry out a plumbing, drainage, air conditioning or electricity installation. If it is needed to calculate, design or choose the suitable material for an installation, it is possible to resort to them. What we deal with here is the relationship between architecture and installations –at the level of design, order and accessibility, fundamentally over the course of 20th century, at present and suggesting some of the possibilities that await in the near future, laying special emphasis on the capacity of the installations like generating elements of projects.

## ACTIVITY REPORT ON

### Major Instruments used for Material Characterization

7<sup>th</sup> and 8<sup>th</sup> March, 2019

There is great relevance to research in education. Apart from ensuring an in-depth knowledge over a topic, scientific and historical research papers also contribute to the world of knowledge. These journals or papers become the helping hands for the students in future guiding and helping them in research. Students need to understand the role of scientific research in society and the importance of scientific research in education as it will ultimately reward them in return. In order to carry out research in Materials Science, the experimental results play a pivotal role in ascertaining the quality of work and its credibility to a larger extent. In this direction, one should be aware of all instruments and its usage with prime focus on sophisticated instruments like Scanning Electron Microscopy to name a few.

The poster is for a two-day workshop titled "Major Instrument Used For Material Characterization" held from March 7 to March 8, 2019. It is presented by the School of Mechanical Engineering at Galgotias University. The speaker is Dr. Ankur Sinha, a Research Associate at the University of Trento, Italy. Contact information for inquiries is provided at the bottom of the poster.

TWO DAYS WORKSHOP

**Major Instrument Used For Material Characterization**

MAR 7, 2019 - MAR 08 2019

SPEAKER-  
DR. ANKUR SINHA  
RESEARCH ASSOCIATE  
UNIVERSITY OF TRENTO, ITALY

For inquiries and concerns, please contact  
Dr. S. Vidya  
B219, B-Block, Galgotias University  
Contact Number:- 9717187589

In this regard School of Mechanical Engineering, Galgotias University organized a Two Days Workshop on "Major Instruments used for Material Characterization" on 7th and 8th March, 2019 from 10:00-12:00 PM. The objective of this workshop was to introduce the different sophisticated instruments to all students of School of Mechanical Engineering and all faculties of SOME who are looking forward to understand the importance of role of Materials Technology in the world of Nano-Science. Through this workshop, students and teachers are encouraged to understand its importance in the present era.

The Speaker of the day was Mr. Ankur Sinha, **Researcher in the University of Trento, Italy**, who is a master in the world of miniaturization and nano-materials. The event was started on

  
Department of Mechanical Engineering  
Galgotias University, Uttar Pradesh

Zoom platform from 10:00 am with the welcome note was given by our Mechanical engineering faculty Mr. K.S.Srikanth, Assistant Professor, SOME, GU. The event was coordinated by Mr. Shrikant Vidya, Assistant Professor, School Of Mechanical Engineering, Galgotias University.

The Speaker shared his experiences of how the world of Nano-Science led to his success stories in his tenure as a student and he explained the role of all instruments in present scenario. The entire session was very informative. The vote of thanks was given by Mr. Kapil Rajput, Assistant Professor, School of Mechanical Engineering. All the participants including the professors and faculty members were satisfied with his content. Workshop was successfully ended with positive response and the interactive question session with zero left queries. In Zoom, 100+ participants joined. On the basis of feedback filled by the participants, auto generated e-certificate were issued to them.

Some of the key points that highlight the importance of knowing the usage of various instruments leading to better understanding of the subject is as follows:

1. **Students Tend to Learn Effectively:** Students tend to learn more proficiently when they learn through research activities and when they specifically see the usage of different instruments practically. Research-based learning supports the genuine interest of a student while learning about a particular topic. Guided by seniors and professors, students get clarity of concept about a particular instrument.

## 2. STRUCTURE/COMPOSITION

X-ray Diffraction (XRD) (Shimadzu).

The x-ray diffractometer is useful for structural and compositional determination of materials. X-rays interact with charge density, and will reflect coherently off of ordered arrays of atoms, resulting in peaks of intensity at the correct angles (corresponding to the different periodicities present in the sample). It is primarily used to identify the crystal structures and lattice constants of inorganic substances and frequently enables you to identify the materials present in the sample from this, but will also give information about ordering in polymer and other organic materials, albeit with lower signal. (Askeland 3-9, Callister 3.16W on website and cd)

Fourier Transform Infrared (FTIR) Spectrometer (Bruker). The molecular bonds in (usually organic) materials can vibrate around their characteristic length or angle in response to stimulation by the energy in infrared radiation. The vibrating bond dissipates energy by emitting radiation of its own at a frequency characteristic of that particular bond and its

  
Department of Mechanical Engineering  
Galgotias University, Uttar Pradesh

surroundings. The radiation that is absorbed or transmitted can therefore be used to determine which combinations of bonds are present in the sample, giving a characteristic spectrum that can be used to identify the organic compound.

X-ray Fluorescence (XRF) (Innov-X). The XRF system provides compositional information by collecting characteristic x-rays that are emitted from a sample following excitation of atomic electron energy levels by an x-ray source. XRF testing only takes a few minutes, so it is the fastest way to get compositional information on certain materials (great for metals). XRF is also used to detect the presence of hazardous materials (e.g., lead) in polymeric components or environmental samples.

Scanning Electron Microscope (SEM) and Energy Dispersive X-Ray Spectrometer (EDS) (JEOL and Thermo Noran). A beam of electrons is accelerated and focused onto the surface of your sample, exciting the emission of secondary electrons from the sample which are detected and used to image the topography of the sample surface with resolution down to tenths of microns (1 millionth of a meter) scale. Can show: grain structure (etched sample), micro-scale structure, surface treatments, fracture details. In conjunction with SEM, some of the electrons will interact with the sample, causing the sample to emit characteristic x-ray radiation which can show the composition of the sample both on the macro-scale and with nearly the same resolution as the imaging part of the SEM (ie micro-scale composition). (Callister 4.9) Optical Microscopes (Leica and Olympus). Visual imaging down to 10's of micron scale. Particularly useful for metallographic analysis of polished and etched specimens. (Callister 4.9)

### THERMAL PROPERTIES

Thermogravimetric Analyzer (TGA) (TA Instruments)

The TGA detects the change in mass of a sample as function of temperature (or time) under a controlled atmosphere. Its principal uses include measurement of a material's thermal stability and composition. TGA may be used to measure water loss or solvent loss with temperature, and weight gain by oxidation at elevated temperatures. With an externally applied magnetic field, the TGA can be used to measure the Curie temperature of some samples.

  
Department of Mechanical Engineering  
Galgotias University, Uttar Pradesh

Thermomechanical Analyzer (TMA) (TA Instruments). Thermomechanical analyzers (TMAs) are used to measure a variety of material properties, including coefficients of thermal expansion (CTE), melting temperatures (though this is better done with the DSC below), glass transition temperatures, heat deflection, and elevated temperature creep or stress relaxation behavior.

Differential Scanning Calorimeter (DSC) (TA Instruments). The differential scanning calorimeter (DSC) measures the energy absorbed (endotherm) or produced (exotherm) as a function of time or temperature. It is used to characterize melting, glass transitions, heat capacity, crystallization temperature, percent crystallinity (polymers), resin curing, loss of solvents, and other processes involving an energy change.

## MECHANICAL PROPERTIES

Universal Mechanical Testers (Instron).

Measure the mechanical behavior and properties (stress vs. strain, elastic modulus, tensile strength, fracture strength, ductility, yield strength, etc) of bulk materials in compression, extension, or bending. The one in the mat. sci. lab is for relatively strong or stiff materials (metals, engineering polymers, ceramics). If you have a material that is too soft for this one, talk to the materials science staff about using the mini Instron in AC429.

Environmental chamber for Instron. Test samples at temperatures between -80 °C and 300 °C. Impact Tester (Instron). Identifies the ability of materials to absorb energy during fracture or to withstand impact in a variety of configurations.

Rockwell Hardness Tester. Determines the hardness of a material (its resistance to surface deformation or abrasion) on the Rockwell hardness scale. Produces 0.1mm to mm scale indentations.

Durometer Hardness Testers. Measures the hardness of polymeric specimens on Shore A and Shore D scales.

Microhardness Tester (Buehler). Determines the hardness of a material on the Vickers or Knoop hardness scale with indentations on the order of tens of microns. Useful to discriminate between different constituents.

  
Department of Mechanical Engineering  
Galgotias University, Uttar Pradesh

## ELECTRICAL PROPERTIES

Four point probe. Determines the electrical conductivity (or resistivity) of solid samples or thin films by applying an electrical current and measuring the voltage drop.

SCHOOL OF MECHANICAL ENGINEERING, GALGOTIAS UNIVERSITY  
ACTIVITY REPORT ON

LEAN MANUFACTURING

23 November 2018

One Day seminar on "Lean Manufacturing" was conducted on November, 23, 2018 in Mechanical Engineering Department. The workshop was inaugurated by lightening lamps by the Chief Guest, Dr. Vikas Choubey, Assistant Professor, NIT Patna. The convener of the program Dr. Sudipto Sarkar has given the brief introduction of the workshop. A keynote speech was delivered by the Chief Guest on Lean Manufacturing. The course work of the workshop started after the completion of inauguration.

**Day 1 Morning (23-11-2018):** In the morning session, Dr. Vikas Choubey, delivered a lecture on Lean Manufacturing. Lean wisdom enables the team to produce outstanding results such as minimize and eliminate waste, optimize workflow and continuously improve. The Lean Management Workshop helps you learn and leverage the wisdom of Lean. We can customize the scheduling and content of these sessions according to the organizational requirement. Lean Manufacturing Workshop gives you a comprehensive introduction to Lean concepts and tools.

- Principles of Lean
- The Seven Wastes of Lean
- 5S Visual Workplace
- Kanban Scheduling Systems
- Lean Six Sigma Green Belt
- Lean Six Sigma Black Belt
- Lean Change Management Workshop
- Lean for Leadership Workshop
- Understand the Terms & Terminology
- Benefits of Lean Manufacturing
- Conduct Value Stream Maps of the Current State
- Identify the Potentials for Reduced Waste and Improved Flow

*[Signature]*  
Department of Mechanical Engineering  
Galgotias University, Uttar Pradesh

- Develop a Future State Map
- Avoid the Common Pitfalls Encountered during Lean Implementation

**Day 1 Afternoon (23-11-2018):** Through this seminar we train your employees on lean principles - the foundation of measurable progress in your organisation. Different aspects like efficiency, productivity, and overall workplace morale will be discussed in detail. Throughout the workshop the underlying principle of lean that is, the elimination of all forms of waste that don't add value to the business is emphasised. We will enable your team to apply these Lean Principles and create a lean culture within your organisation.

- Lean Principles
- Productivity
- Efficiency
- Workplace Morale
- Lean Culture
- Add Value to Business

**Day 1 Evening (23-11-2018):** This seminar will help leaders understand the differences between applying lean to their organisation vs integrating it into the business system. The workshop will analyse your current organisational strategies and identify the gap between where you are today and where you need to be. Leadership is key to successful implementation of lean strategies. We would empower individuals to take up personal leadership roles and practices, what a true leader does, how to identify the drawbacks within and ways to fill those gaps, so that the integration of lean will be more effective.

- What does Lean mean to Your Organisation?
- How to Sustain Lean?
- Culture of Continuous Improvement
- Lean Thinking
- Leadership Skills, Competencies and Capabilities

(the "Editor")

The Publisher and the Editor (hereinafter referred to as the "Parties") wish to work together to achieve the professional standards and success that they each desire from the Work tentatively entitled **Biomaterials in Food Packaging** (hereinafter referred to as the "Work") and agree as follows:

**1. RIGHTS**

The Editor grants to the Publisher for the full term of copyright and all extensions thereof the exclusive copyright in the Work throughout the world in all languages. The Publisher's exclusive rights will include the right by itself or with others to reproduce, publish, distribute, transmit and sell the Work and derivative works, in whole or in part, in all media and forms of distribution, under the Publisher's name and other imprints or tradenames, together with the exclusive right to license others to do so and to register the copyright in the Work. The title of the Work and any series titles used on or with it will also belong to the Publisher. For purposes of this Agreement, the term "Work" will include any material contributed by the Editor to any supplementary or ancillary materials which may accompany the Work.

**2. EDITOR'S DUTIES**

- a. Outline. Prepare an outline of the scope of the Work, including without limitation the number and title of the contributions to be included therein, select suitable contributors (the "Contributors"), fix the length and scope of each contribution, and arrange for each Contributor to prepare and promptly submit the contribution in accordance with the manuscript Due Date set forth in Section 2(d) below;
- b. Review. Review each contribution, make or request the Contributor to make such revisions as the Editor or the Publisher thinks appropriate, and reject any contribution deemed unsatisfactory by the Editor or the Publisher;
- c. Contributor Agreement. Advise each Contributor that each contribution must be accompanied by a Contributor Agreement (the "Contributor Agreement"), which all Contributors will be required to sign and deliver with the manuscript by the manuscript Due Date;
- d. Delivery Obligations. The Editor will prepare and deliver the complete and final manuscript of the Work, satisfactory to the Publisher in organization, form, content and style by **31 December 2019** (the "Due Date"), in word processing systems in Microsoft Word or LaTeX. The manuscript will be ready for reformatting with copyediting.

## Chlorophylls as Pigment: A Contemporary Approach

### Abstract

This chapter contains sections titled:

1. Introduction
2. Molecular Structure and Physico-Chemical Characterization
3. Coloring Aspects
4. Characterization and Quality Control
5. Conclusion and Future Outlook
