--------------------------	--

March 31, 2020

To all Higher Education institutions in South Asia

Dear Institution Head,

My team & I hope for your safety & health and that of your family, faculty-members, students and their families.

In these unprecedented times brought on by COVID-19, Turnitin's board & global leadership led by Chris Caren, CEO are committed to supporting education institutions worldwide throughout this crisis.

We are making **Gradescope Complete**, **Feedback Studio** and **SimCheck for Admissions** available to all Higher Ed institutions in South Asia from April 01, 2020 through till June 30, 2020 without any subscription fee.

- To activate access to **Gradescope**, faculty members can sign-up directly at www.gradescope.com. Institutions that would like to make Gradescope available for all faculty members & students can reach out either to their Turnitin Account Manager or email us at southasia@turnitin.com
- **Feedback Studio** features have automatically been activated for all institutions that have subscriptions of **Turnitin Originality Check**.

Institutions that do not currently have a Turnitin subscription and are desirous of using Feedback Studio, for online grading & assessment of written English assignments, essays, reports and/or checking assignments for plagiarism online, can reach out either to their Turnitin Account Manager or email us at southasia@turnitin.com

- To activate an institutional subscription of **Turnitin SimCheck** for their admissions offices, institutions can email us at southasia@turnitin.com

Please do not hesitate to reach out to us for any support that may be required either for the current Turnitin subscription at your institution or for activating access of the above applications to meet the remote, online assessment needs at your institution.

Stay safe, stay well!

Ashim Sachdeva
Regional Vice President & Head of South Asia

❑ GRADESCOPE

Originally developed by former Computer Science Ph.D. students & teaching assistants at UC Berkeley, Gradescope by Turnitin has quickly been adopted at many top higher education institutions in North America, including half of all Ivy League schools.

- **Reduce the time associated with grading in academic courses via an optimized online workflow and clever application of artificial intelligence**
Instructors can use consistent rubrics and AI assistance for grouping similar students answers together and gain additional insights about student learning in any area of study, including economics, business, and STEM (science, technology, engineering, and math).
- **Grade any assignment type including paper-based problem sets, computer code & engineering diagrams**
In addition to exams, instructors can grade homework, bubble sheets and even programming projects on the same platform.
- **Turn grading into learning**
With Gradescope, grading shifts from a delayed, one-sided interaction to a process that promotes real-time, relevant learning; students get their work back much more quickly with actionable feedback while instructors receive helpful statistics about their students' course learning outcomes that gives greater confidence about achieving the intended outcomes.

❑ TURNITIN FEEDBACK STUDIO

Feedback Studio is used by 34 million end-users and over 15,000 institutions worldwide, including 80 of the top 100 universities globally to:

- **Save time on grading and feedback**
Grademark empowers faculty members to provide personalized & actionable feedback to students with drag-and-drop QuickMarks, online text & voice comments and automatic grammar checking.
- **Measure student success at scale**
Pre-defined or custom rubrics empower instructors to evaluate student work consistently, easily connect grading criteria to in-line feedback and track & analyze student progress to inform instruction and support strategic initiatives throughout the institution.
- **Safeguard academic integrity**
With the world's most widely used text plagiarism detection application under-the-hood, drawing on the most comprehensive collection of internet, academic and student paper content, instructors can get the most reliable results when checking student work for text similarity. This empowers them to combine cutting edge tools with curricular resources to deter plagiarism, teach the value of authentic writing and protect the institution's reputation.

Analysis conducted by subscribing institutions over time points to over 50% decrease in plagiarism over a 2 to 3-year subscription period and a 38% reduction in time spent on grading by their faculty members.

❑ TURNITIN SIMCHECK FOR ADMISSIONS

SimCheck is a simple web application with an efficient submission & file management process for checking similarity in student applications, all with a simple user administration workflow and intuitive Similarity Report that displays text matches with an indicative similarity score.

- **Empower your institution's admissions office**
Check student enrolment applications for text similarity by matching against more than 70 billion current and archived internet sources

** Due to the lockdown of resources, we regret we will not be able to support LMS integrations for these applications and/or Caliper Analytics (Gradescope) during this period. Licensed end-users will be able to access the three applications using the native web access.*

For more information, please send an email to your Turnitin Account Manager or to southasia@turnitin.com

** Due to the lockdown of resources, we regret we will not be able to support LMS integrations for any of the applications and/or Caliper Analytics (Gradescope) during this period. Institutional end-users can access all applications with our native web access.*
