Course Objectives: Crime is committed against the society though victim may be individual, group or community. The Criminal Procedure code facilitates the seeker of remedy to be assisted by the instrumentalities of the state. The criminal justice system includes one of the most important statutes called the Criminal Procedure Code which in common law system in general and India in particular has adopted the adversarial system based on accusatorial method. In this system prosecutor representing the state brings out the accusation and has to prove the case beyond reasonable doubt and accused get the opportunity for the fair trial. The essence of fair trial under criminal justice system emerges from the premise of presumption of innocence of accused undergoing trial, right of the accused to know accusation against him right from initiation of investigation till filling of challan/charge sheet, taking of cognizance, and framing of charge under judicial Process. Subjecting him to defend the charges during trial wherein trial process and evidence adduced are taken in his presence and understanding. The entire process is conducted in open court with right to appeal and approach the highest court of this land. Thus trilogy of the investigation, inquiry and trial under the Criminal procedure Code is directed towards fair and equitable remedy to the victim and the adequate protection to accused to prove his innocence.

Course Objectives:

International trade is a complicated area of law because there are numerous levels of trade organizations and interactions. There are bilateral trade agreements, regional trade agreements and multilateral trade agreements. Each of these agreements has its own history, policies and dispute settlement procedures. This course will deal with the law relating to WTO, regional trade agreements on international trade, dispute settlement mechanisms, and international sales. Apart from the relevant Indian laws, the focus will be mainly upon the international legal conventions and Indian legal system in these areas. As this sect of Law consists of a mix of public international law and domestic/national law, applicable to commercial transactions, other related enactments will also be discussed in detail.

Course Outcomes

CO1	Understand the basic understanding of the normative, institutional framework and robust mechanism for the regulation of international trade.
CO2	Understand the importance of Law of International Trade in an increasingly globalized world of complex international economic relations.
CO3	Explaining the role of International bodies which regulates International Trade
CO4	Analyze the practices and approach of India on various issues attached to International trade, particularly as an emerging global economic power.
