- Understand the functions of sales, carriage, payment and cargo insurance contracts in international trade
- Apply knowledge of these four contracts in any given factual scenario on international sales transaction
- Understand the rules governing the WTO regime in facilitating trade and the dispute settlement mechanism

Course Outcomes:

Successful completion of this paper will make students understand the laws relating to WTO, international sales, transportation with reference to shipping and aviation, international banking, insurance and taxation and also facilitate critical legal thinking on how to incorporate these laws in the Indian legal system while adhering to the principle of free and fair trade. The basic objective is to make them understand that trade and development are not mutually exclusive. At the end of the course, the student is trained to pick his research area of his interest and produce a thesis
