

Alumni Talk Series 2022

on

The Lesson can be learned, stimulated and inspired

The School of Business has organised an alumni talk on “The Lesson can be learned, stimulate and inspire” on 17th August, 2022. Alumni Mr. Adhitya Vadlakunta of Batch 2013-2015 was the speaker for the day. Currently working as a Senior Business Analyst at Hastings Direct, London.

Mr Adhitya Vadlakunta was greeted by Ms Ayushi and Mr Abhinav. He made students know about his student's life journey and made them understand what getting focused on a career means. He explained all about her GU's path, how she completed her MBA, and how the faculties and authorities of SOB encouraged him on his path.

He mainly discussed the significant development in data analytics and how students can choose a career in data analytics. He said a tech background is not necessary to go ahead in the field of Business Analytics. Still, one vital thing is to understand the domain and to know how to implement the various Data analyses. He also advocates the idea of gaining experience by working in a real workstation and learning things practically then going for higher education like master's etc. It will facilitate clarifying things more easily.

The suggestions put forward by the alumni for our young job aspirants were:

- Learn at least one Cloud or Data analysis tool that is freely accessible and explain its applicability by demonstrating a research work.
- Show them that you can do the next step.
- Be informed in detail about the application area and a solution to a problem.
- The way you answer should depict your confidence.
- How you think in the challenging scenario pushes you forward.

He talked about the importance of unlearning and relearning in the professional and personal life of an individual and how learning continuously will help anyone to grow in their career path.

The session was inspiring and helpful. All students interacted with the speaker and ask excellent questions about his work, experiences, student life, observations, etc.

The students of SOB Alumni Circle played a significant role in this event. The interaction was outstanding, and students were very motivated, which will help them choose their dream job and career wisely. The event was successfully organised and managed by the Student Organizing Committee, and it was attended by more than 110 students of SOB. The session ended with a vote of thanks by Ayushi Pandey, a core member of the Alumni Organising Committee, and the token of thanks was given by Dr Anamika Pandey, Dean of SOB,

Galgotias University. The session was coordinated by Dr Snigdha Dash, Alumni Coordinator, SOB, Galgotias University.
