The School of Education (SOE), Galgotias University organized a Workshop on Competency-Based Assessment on Wednesday, the 15th October 2025. The session, was taken by Dr. Veena Mishra, Principal of National Victor Public School, Patparganj, New Delhi. The basic idea behind the conduction of this workshop was to enable the students to become proficient in this much needed skill in the present educational scenario. The workshop on Competency-based assessment was highly relevant for B.Ed. and M.Ed. students because it shifts the focus from rote memorization to the practical demonstration of essential teaching skills, pedagogical knowledge, and professional competencies. By evaluating student-teachers on their actual ability to design inclusive learning environments, apply innovative strategies, and support diverse learners, this approach ensures they are thoroughly prepared for the real-world demands of modern classrooms.

The event was attended by all the faculty members and both First Semester and Third Semester B.Ed. and M.Ed. students.

The workshop was very informative and interactive. A question-answer session helped to solve all the queries and curiosities of the students.

The workshop was enjoyed thoroughly by one and all present. The dean of SOE, Dr. Satyendra Gupta, thanked the esteemed speaker in the end and encouraged the students to become proficient in this skill.

This also helped the students in the attainment of Sustainable Development Goal (SDG)-4 of Quality Education.

Dr. Ashwarya Srivastava, Associate Professor for the School of Education at Galgotias University coordinated the event.
