**Description (min 150
to max 800 words) ***

The Department of Pharmacy at Galgotias University, in collaboration with the Indian Pharmaceutical Association (IPA), Delhi Branch, organized a guest lecture titled “Building a Career in Global The School of Medical and Allied Sciences organized a **One-Day Industrial Visit to Sun Pharmaceutical Industries Ltd., Gurugram** for the **M.Pharm students** with the objective of providing practical exposure to pharmaceutical manufacturing practices, quality systems, regulatory compliance, and industrial operations. The visit was designed to bridge the gap between theoretical knowledge acquired in the classroom and its real-world application in the pharmaceutical industry.

During the visit, students were introduced to the organizational structure, operational workflow, and manufacturing facilities of Sun Pharmaceutical Industries Ltd., one of India's leading pharmaceutical companies. Industry experts provided detailed insights into various departments, including Production, Quality Control (QC), Quality Assurance (QA), Research and Development (R&D), Regulatory Affairs, Warehousing, and Supply Chain Management. Students gained an understanding of Good Manufacturing Practices (GMP), Current Good Manufacturing Practices (cGMP), Standard Operating Procedures (SOPs), documentation systems, and quality management processes followed in the pharmaceutical industry.

The technical team demonstrated the functioning of modern pharmaceutical equipment, automation systems, environmental monitoring practices, and quality control testing procedures. Students observed the importance of maintaining quality standards, ensuring product safety, and complying with national and international regulatory requirements. Discussions were also held on pharmaceutical product development, validation processes, risk management, and career opportunities available in different sectors of the pharmaceutical industry.

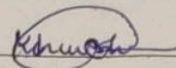

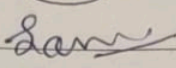

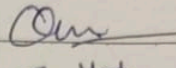

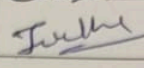

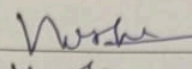

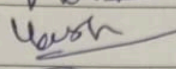

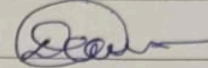

An interactive session with industry professionals allowed students to clarify their doubts regarding industrial operations, research activities, regulatory expectations, and professional growth in the pharmaceutical field. The visit enhanced students' understanding of industrial practices and provided valuable exposure to the professional work environment. Overall, the industrial visit was highly informative and beneficial, enabling M.Pharm students to gain firsthand experience of pharmaceutical manufacturing and quality systems. The visit successfully enriched their practical knowledge, strengthened their industry-academia understanding, and motivated them to develop the technical and professional skills required for successful careers in the pharmaceutical sector.

Mode	Offline Event
