| <b>Description (min 250 to max 800 words)*</b>                                                                                                      | <p>The School of Computer Applications and Technology, Galgotias University, organized a UI/UX Design Workshop on 03 September 2025 for BCA Semester 3rd students enrolled in the Human-Computer Interaction (HCI) elective. The workshop was conducted from 03:00 PM to 03:50 PM at Venue C-217 and aimed to provide students with a practical introduction to User Interface (UI) and User Experience (UX) design concepts, bridging theoretical knowledge with industry-relevant skills.</p> <p>The session began with an overview of UX Research, emphasizing the importance of understanding user needs, behaviors, and usability challenges in the design of digital products. Students were introduced to design systems, which ensure consistency, scalability, and accessibility across interfaces. This was followed by a detailed discussion on UI</p> |

|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                   | <p>principles such as visual hierarchy, color theory, typography, alignment, and spacing, highlighting how design decisions directly influence user satisfaction and engagement.</p> <p>A major highlight of the workshop was the hands-on exposure to wireframing and prototyping using Figma, a widely used industry-standard design tool. Students learned how to create low-fidelity wireframes and interactive prototypes, gaining practical insights into the iterative design process. The interactive nature of the session encouraged active participation, with students asking questions and relating concepts to real-world applications such as mobile apps and web platforms.</p> <p>The workshop successfully enhanced students' design thinking abilities, usability awareness, and technical skills, preparing them for industry-relevant roles in UI/UX design. Outcomes included a clear understanding of UI/UX fundamentals, improved awareness of HCI principles, practical exposure to modern design tools, and strengthened problem-solving skills. Feedback from participants was highly positive, with many expressing interest in advanced workshops on UI/UX design and front-end development.</p> <p>This initiative aligns with NAAC quality parameters and contributes to Sustainable Development Goals (SDG 4 – Quality Education and SDG 8 – Decent Work and Economic Growth) by promoting skill development and industry readiness among students.</p> |
