## Value Added Course on Administration of Psychological Tools

Value added courses on Administration of Psychological Tools was conducted in offline mode and were held in campus between 18th May to 6<sup>th</sup> June 2022 for students of Bachelor of Education (B.Ed.) & Master of Education (M.Ed.). The course was coordinated by Ms. Neha Kumari, Assistant Professor of Education. The Resource Person for the Course was Dr. Shikha Srivastava, Professor, School of Liberal Education and of Psychology Center of Galgotias University.

This course helps them to grasp the basic knowledge of psychological tools and develop an understanding of the administration of psychological tools. Students also demonstrate competence in the selection, administration, and scoring of the given psychological tests. Psychological tools have become significantly important in education systems across the world.

A session was also organized to provide hands on experience that how to administer different type of psychological test like 16 PF personality test, Personality Test (MBTI), study habits inventory etc. The value-added course helps learners to understand the importance of Psychological tools for the career development.

## INTRODUCTION

# School of Education

---

The value-added courses aim to provide additional learner-centric and skill-oriented technical training. The objectives of the value-added course are to improve the skills of the students and make them employable. Such courses provide an opportunity for students to develop inter-disciplinary skills. This course aims to develop an understanding of the student's behaviour and its interpretation. This course bridges the skill gaps and makes students ready to face classroom challenges.

## COURSE OBJECTIVES

1. To develop an understanding of the administration of psychological tools.
2. To learn to administrate different types of psychological tools.
3. To design strategies for selecting, administering, and interpreting selected psychological tools.
4. To evaluate students' understanding of psychological testing.

## COURSE OUTCOMES

On completion of this course, the learners will be able to-

1. Develop an understanding of the administration of psychological tools.
2. Administrate different types of psychological tools.
3. Design strategies for selecting, administering, and interpreting selected psychological tools.
4. Demonstrate competence in the selection, administration, and scoring of the given psychological tests.

**Assessment:** Based on Rubrics

**Certificate:** Digital/Paper certificate will be issued to successful students

**Course Coordinator:** Ms. Neha Kumari
