Description (min 250 to max 800 words)*	The session aimed to introduce students to identifying effective problem statements and research opportunities in the fields of Blockchain, Generative AI, and Machine Learning. The workshop highlighted how these technologies are transforming modern research and industry applications. Mr. Yash Sharma, Solution Architect at Bank of America, delivered an informative talk explaining the role of Blockchain in secure and transparent systems and the use of Gen AI and ML in intelligent decision-making and automation. He emphasized aligning academic research with real-world challenges and industry needs. The session covered key research areas such as AI-driven analytics, secure data sharing using Blockchain, and predictive modeling with ML. Overall, the workshop provided valuable insights into emerging technologies and motivated students to explore innovative research directions.
Details of Keynote speaker/ Special Guest (Name, Institute/ Company name, Designation, contact no.)	Yash Sharma Solution Architect at Bank of America
Student Coordinators	Shreshth Khanna Sejal Jangra Ayush Raturi
